

MICHIGAN TECHNICAL EDUCATION CENTERS TRAINING AND WORKFORCE DEVELOPMENT SOLUTIONS

The State of Michigan is committed to having a highly trained, world-class workforce. With an investment of \$60 million dollars, 18 state-of-the-art Michigan Technical Education CentersSM (M-TECs) have been constructed within the Michigan community college system. The M-TEC network provides an outstanding statewide educational, training and workforce development infrastructure for Michigan's businesses.

M-TECS OFFER

Training On-Demand

From 'off the shelf' entry-level training, to highly customized advanced training packages, the M-TECs work with companies and other organizations to find solutions to meet whatever training needs exist.

High Quality, Affordable Learning and Meeting Spaces

Each M-TEC is equipped with state-of-the-art equipment and technology, offering high quality learning and meeting space environments at affordable prices.

Customer Focused Service Delivery

The M-TEC service delivery model is customer focused and flexible. M-TEC clients can fully expect to receive training, workforce development and other available services when, where and how they want them.

Worker and Job Skills Assessments

M-TECs can help to assess the skill levels of new job applicants in the pre-hire process, and the existing workforce through the use of skills assessment and evaluation tools. The M-TECs can also assist in finding what core skills are needed to perform specific jobs and tasks.

Useful and Relevant Information

Navigating through the maze of training, workforce development and labor market information can be a daunting task. Through strategic partnerships with

organizations such as the Michigan Works! agencies and the State of Michigan, the M-TECs offer a 'one-stop shopping' information solution. The dedicated, knowledgeable staff at each M-TEC can provide assistance to human resource and training/development personnel. This is done by providing relevant information on the latest trends and resources available within Michigan's workforce development, labor market information systems and beyond.

STATE-WIDE SERVICE ON DEMAND

Strategically placed throughout the State of Michigan, MTECs provide a comprehensive array of standardized and customized training, workforce development programs and services to private businesses, non-profit organizations, government agencies and individuals. Training and other workforce development services are delivered on-demand, with flexibility to adapt to clients' needs.
