Section 1042 of the General Government Omnibus Budget, Public Act 268 of 2016, requires the Michigan Strategic Fund (MSF) to report quarterly on the amount of fiscal year 2017 funds for Business Attraction and Community Revitalization considered appropriated, pre-encumbered, encumbered and expended.

Funds are pre-encumbered when the MSF enters into negotiations with a company regarding an incentive. This category also includes those instances where commitment letters have been issued or the MSF has approved an incentive but has not yet executed an agreement. Funds are encumbered after a formal written agreement between the MSF and a company has been fully executed. Funds are expended when the MSF determines that a company has met all requirements of a project, as set forth in the formal written agreement, and funds have been disbursed.

In fiscal year 2017, the MSF was appropriated a total of $115,499,900 for Business Attraction and Community Revitalization. The amounts that have been pre-encumbered, encumbered and expended as of September 30, 2017, are detailed in the table below.

Section 1042 also requires a list of appropriations for Business Attraction and Community Revitalization that were considered appropriated, pre-encumbered, encumbered or expended that have lapsed back to the MSF for any purpose. To date, no funds have lapsed back.
