<td>HB 6064</td>
<td>423</td>
<td>12/20/18</td>
<td>Economic development; MSF; create and operate the rural jobs and capital investment fund program. Includes an additional change to the Community Revitalization Program (CRP), to allow for a greater level of investment for projects located in communities with populations of 15,000 or less. Previously only 3 projects per calendar year could receive CRP funds at a greater level than 25% of eligible investment of the project (up to 50%) and projects had to be for historic preservation. All others could only be supported up to 25% of eligible investment. The amendment allows the program to meet the financing need common in smaller communities where the cost of development is significantly higher than what project revenue can support.</td>
<td>Currently developing program guidelines to be adopted by the MSF board in the future. CRP guidelines modifications are expected to be considered by the MSF board in April of 2019.</td>
