MEMORANDUM

Date: December 15, 2015

To: Michigan Strategic Fund Board

From: Christine Whitz, Manager, Community Development Block Grant Program

Subject: Community Development Block Grant Program
Downtown Façade Improvement Project
City of Alpena, County of Alpena

Request
The Community Development Block Grant Staff is requesting that $72,000 from the Michigan State Housing Development Authority (MSHDA) be added to the City of Alpena’s Downtown Façade Improvement Project.

Background
On November 24, 2015 the Michigan Strategic Fund (MSF) Board approved a Façade/Housing grant for the City of Alpena in the amount of $1,291,591, comprised of $891,591 from the MSF and $400,000 from the MSHDA. The MSHDA funding was previously authorized and was not part of the approval. However, the incentives were combined into one grant agreement to better serve the customer. (Appendix A-Original Briefing Memo)

Due to staff oversight, $72,000 authorized by the MSHDA was not included in the total project cost and the grant agreement authorization amount needs to be amended and increased.

Recommendation
The MEDC Staff recommends:

- A Façade/Housing grant agreement be authorized in the amount of $1,363,591, comprised of $891,591 from the MSF and $472,000 from the MSHDA. The MSHDA has authorized their allocation to this project.
MEMORANDUM

Date:   November 24, 2015
To:  Michigan Strategic Fund Board
From:   Daniel Leonard, Community Assistance Specialist
        Lisa Green, Program Specialist, Community Development Block Grant
        Christine Whitz, Manager, Community Development Block Grant Program
Subject:  Community Development Block Grant Program
          Downtown Façade Improvement Project
          City of Alpena, County of Alpena

Request
The City of Alpena is requesting $891,591 in Community Development Block Grant (CDBG) funds for façade improvements needed for the downtown façade improvement project located in Alpena County, Michigan. The Michigan State Housing Development Authority (MSHDA) is funding $400,000 in CDBG funds for this project’s residential improvements. The MSHDA funding has previously been authorized and is not part of this approval. However, since the combined incentive amount for this community is $1,291,591, we are requesting Michigan Strategic Fund (MSF) Board approval. The City expects that this project could result in private investment of $1,043,560 and the complete interior/exterior restoration of two (2) buildings within the downtown.

Background
Within this proposed downtown façade improvement project there are two (2) buildings and two (2) very different businesses utilizing the financial assistance of the MSF and the MSHDA. Alpena Furniture and Flooring is a long-standing retail operation within downtown Alpena and has been in business since 1995. Given the size of Alpena’s market and physical large-scale size of the subject building, the retail operations related to the business currently occupy a significant amount of the roughly 28,000 square foot structure. For Alpena Furniture and Flooring the incentives are allowing the building to both be physically stabilized and historically enhanced, as well as, renovated to accommodate new residential rental units to a community which has limited downtown rental opportunities. Given the relatively low commercial value of the building, if the business owner were to request lending from a traditional financial institution there would not be adequate value in the building or the business holistically, to support the renovation efforts being
implemented per the proposed grant application. If it were not for the financial assistance of these CDBG dollars, both the building owner and his primary lending institution would not be supportive of this project.

The Old Owl was and continues to be a stakeholder within Alpena’s restaurant scene, but has been closed for the past year due to a loss in the original ownership of the building and operations. The structure of the Old Owl is one which has experienced several physical alterations through the years as the building was subject to a fire and previous construction projects which took away from the original building’s historic character. Past construction efforts compartmentalized the interior of the building and severely limited the efficiency of the restaurant’s operations. In working with both the Michigan Small Business Development Center (SBDC) representatives and a local architect, the new building owner is proposing renovation efforts to better layout the business, as well as, generate a more inviting atmosphere through the introduction of new windows, lighting and access to the building in general. The financial assistance offered will include the renovation of three (3) sides of the building on the north, east and south facades and include new brick work, windows, access entry points as well as new doors themselves. Again, without the assistance of the CDBG dollars in play both the building owner’s primary lender, as well as, the owner would not be financially able to justify the significant increased costs of these renovation efforts.

Program specific requirements and screening guidelines are addressed in Appendix A.

Terms Sheets for Project provided in Appendix B.

Project area map, including renderings and before photos are provided in Appendix C.

**Recommendation**

The MEDC Staff recommends:

- CDBG Façade funding in the amount of $891,591 be authorized for the City of Alpena. This funding will be part of a Façade/Housing grant agreement in the amount of $1,291,591, comprised of $891,591 from the MSF and $400,000 from the MSHDA. The MSHDA funding has previously been authorized and is not part of this approval.
APPENDIX A – Programmatic Requirements & Screening Guidelines

Program Requirements
The project was evaluated utilizing the CDBG requirements. It has been determined that the project meets the following requirements to qualify as an eligible project under the CDBG program:

- **National Objective:**
  The façade portion of the project qualifies for CBDG funding as the project activities will benefit all residents of the project area and 70.9 percent of the residents of the City of Alpena are low and moderate income persons as determined by an income survey. The façade portion of the project meets a national objective by providing benefit to at least 51 percent low and moderate income persons.

- **Eligible Activity:**
  This project involves eligible activities identified in Section 105(a)(4) of Title I of the Housing and Community Development Act of 1974, as amended.

Screening Guidelines
The project was evaluated utilizing the CDBG guidelines. It has been determined that the project meets the following standards to qualify as an eligible project under the CDBG program:

- **Economic Impact:** The economic impact of this project was evaluated. It was determined that the project’s implementation within the City of Alpena will not only act as a catalyst toward additional private investment within the community, but will also add additional taxable value to the City. The City of Alpena has:
  - A local façade program
  - Local organizational capacity to successfully complete this project
  - A full-time downtown development professional or community staff member able to administer the project
  - Adopted a downtown development plan

  The project is/will:
  - Introduce new employment opportunities through the opening of a new business downtown.
  - Located in a highly visible location
  - Located in a DDA
  - Consist of two or more buildings that have the following characteristics:
    - Multi-story Building
    - Mixed-use components
    - Both façade and the introduction of new residential units
    - Eligible for Historic or Contributing Designation
    - Partially or completely vacant building being returned to active use

- **Minimum Local Participation:** The DDA will contribute $10,000 to the project, which is less than one percent (1%) of the total project cost. In addition, the City of Alpena will act as the grantee on behalf of the “Old Owl” and “Alpena Furniture and Flooring”. The Community has provided
significant staff resources to complete the application process and will provide significant staff resources to administer this grant.

- **Minimum Leverage Ratio:** The private leverage contribution, $813,580 to be provided by “Alpena Furniture and Flooring” and $229,980 to be provided by the “Old Owl” equals $1,043,560 which results in a leverage ratio of approximately .81:1 of the CDBG grant.

- **Financial Viability and Background Check:** The businesses receiving the benefit from this project have completed a background check with no concerns and have been determined to be financially viable.

The MEDC staff has concluded that the project meets the minimum program requirements and screening guidelines to be eligible under the CDBG program.

MEMORANDUM

Date: December 15, 2015

To: Michigan Strategic Fund Board

From: Mark Morante, Michigan Strategic Fund Manager/Senior Vice President, Community Development

Subject: Amendment to the Memorandum of Understanding for Administrative Services

Request
Staff is requesting an amendment to the existing Memorandum of Understanding (“MOU”) between the Michigan Strategic Fund (“MSF”) and the Michigan Economic Development Corporation (“MEDC”) to include provisions for the administrative services related to the Community Development Block Grant Program (“CDBG Program”) and the Michigan State Trade and Export Program (“MI-STEP Program”) (collectively, the “Request”).

Background
Currently, the CDBG Program and the MI-STEP Program are the only two programs not included under the general administrative services MOU between the MEDC and the MSF. In order to promote consistency and efficiency in administration of programs on behalf of the MSF, it is necessary and proper to amend the existing MOU to include both the CDBG Program and the MI-STEP Program. The amendment will also include provisions allowing the MEDC to be reimbursed for costs related to administration of these programs in accordance with applicable state and federal law, rules, and regulations.

Recommendation
MEDC staff recommends approval of the Request.

WHEREAS, the MEDC and MSF wish to amend the MOU to include administrative services for the Community Development Block Grant Program (the “CDBG Program”) and the Michigan State Trade & Export Promotion Program (the “MI-STEP Program”); and

WHEREAS, the MSF wishes reimburse the MEDC for actual costs related to the administration of the CDBG Program provided that those costs do not exceed the allowable administrative and technical assistance costs as defined in the Housing and Community Development Act of 1974, Public Law 93-383, as amended, and its implementing regulations (collectively, the “CDBG Legislation”); and

WHEREAS, the MSF wishes to reimburse the MEDC for actual costs related to the administration of the MI-STEP Program provided that those costs do not exceed the allowable administrative and technical assistance costs as defined in the State Trade Export Promotion Program authorized under Section 1207 the Small Business Jobs Act of 2010, Public Law 111-240, as amended, and its implementing regulations and the MSF Act, PA 270 of 1984, MCL 125.2001 et seq. (collectively, the “MI-STEP Legislation”).

NOW, THEREFORE, BE IT RESOLVED, subject to the control and direction of the MSF Board, the MEDC shall provide administrative services through September 30, 2016 for the CDBG Program and the MI-STEP Program;

BE IT FURTHER RESOLVED, that the MSF Fund Manager, in consultation with the Office of the Attorney General, is authorized to sign an amendment to the MOU amending the MOU to include the CDBG Program and the MI-STEP Program from October 1, 2015 through September 30, 2016; and

BE IT FURTHER RESOLVED, that the MSF Board authorizes that the MEDC may be reimbursed for actual costs related to the administration of the CDBG Program and the MI-STEP Program in accordance with the CDBG Legislation and MI-STEP Legislation, respectively.

December 15, 2015
MEMORANDUM

Date: December 8, 2015

To: Michigan Strategic Fund (MSF) Board

From: Mark Morante, SVP, Community Development

Subject: Memorandum of Understanding between the Michigan Strategic Fund, Michigan Economic Development Corporation and the Michigan State Housing Development Authority

Request
MEDC staff requests approval of the attached Memorandum of Understanding (MOU) between the Michigan Strategic Fund, Michigan Economic Development Corporation and the Michigan State Housing Development Authority. The terms of this MOU shall begin on January 19, 2016.

Background
For over the past 15 years, both the MEDC and MSHDA have been working in the “community development” space. Both agencies provide similar technical assistance and funding which has often created confusion for our customers. Strides have been made for better alignment of funding sources but ultimately the best way to serve the customer is to have one point of contact, one application process and a single agency to work with.

For the most effective and efficient delivery of services in support of vibrant communities and in keeping with the Governor’s charge to reinvent our government and restore our cities we are proposing to consolidate all community development field services with the following changes:

Combine MSHDA and MEDC field staff so there is one point of contact for local units of government. This will eliminate the redundancy and errors that can occur when communicating with multiple people across multiple agencies. By increasing the number of field staff we will be able to provide a more hands-on approach to broader community development issues. With appropriate staffing we would be able to proactively assist with local and regional needs while working to develop priorities and financing packages to make them happen.

Maintain one agency control over federal Community Development Block Grant dollars. This will eliminate two application processes, two monitoring processes, and overall ease for our community applicants. One entity responsible for the majority of the community development financing and incentive tools; the Community Revitalization Program, Brownfield Tax Increment Financing and Community Development Block Grants. Additionally, the MEDC has direct access to the various financial resources available from our Capital Markets unit (CDBG RLF, Development Michigan, SSBCI, etc.).

Recommendation
MEDC Staff recommends that the MSF authorize the MSF President to execute the attached MOU between the MSHDA, MEDC and the MSF related to community development realignment.

December 15, 2015
MEMORANDUM

Date: December 15, 2015

To: MSF Board

From: Christin Armstrong, Senior Corporate Counsel & Director, Compliance

Subject: General Motors – Amendment to Global MEGA Agreement

Background
On June 25, 2009, the MEGA Board authorized a Retention Tax Credit for General Motors Corporation, which was transferred to General Motors, LLC on November 17, 2009, (“General Motors” or “Company”) of up to 100 percent for twenty consecutive years for a maximum of 30,000 Retained Jobs at its facilities throughout the State of Michigan (the “Global MEGA Tax Credit”). The Global MEGA Tax Credit was subsequently amended to allow for a maximum of 34,750 Retained Jobs.

As of December 31, 2014, General Motors has retained 32,890 MEGA-eligible full-time jobs and satisfied its original investment commitment in the State of Michigan.

Request
MEDC Staff requests and recommends that the Michigan Strategic Fund (“MSF”) Board amend the Global MEGA Tax Credit, consistent with the MEDC’s objectives of achieving budget transparency and certainty for MEGA Tax Credits and in accordance with the following (collectively, the “Amendment Request”).

(1) The State of Michigan’s obligations under the Global MEGA Tax Credit will be capped for tax credits that the Company may claim over the life of the Global MEGA Tax Credit (“Tax Credit Limit”). The Tax Credit Limit includes Global MEGA Tax Credits that have already been issued.

(2) In order to assist the MSF and the State of Michigan with budgeting and cash-flow planning, the Company will be required to provide periodic forecasts of its estimated tax credits earned under the Global MEGA Tax Credit (the “Tax Credit Forecast”). The tax credit claimed by the Company in a tax year will not exceed the estimated tax credit forecasted for that tax year.
(3) The Company, or other subsidiaries of General Motors Company, will make new capital investment of $1 billion over the remaining term of the Global MEGA Tax Credit (the “New Project Investment”).

(4) The Parties will include recapture provisions under which the Company will be required to repay a portion of previously issued tax credits if it does not achieve its New Project Investment by December 31, 2029.

**Request Rationale**
General Motors has agreed to significantly increase its capital investment in the State of Michigan over the remaining term of the Global MEGA Tax Credit. This is a strong indication of the Company’s commitment to growing and maintaining its operations in Michigan for the long term.

In addition, this amendment does not increase the State’s liability under the MEGA. In fact, the amendment would serve to limit and even reduce the State’s costs and provide more certainty with its long term obligations to General Motors under the Global MEGA Tax Credit. The amendment will also provide greater predictability in the amount and timing of claimed tax credits.

**Recommendation**
MEDC Staff recommends approval of the Amendment Request and further recommends that the MSF President or MSF Fund Manager, with only one required to act, be authorized to negotiate the final terms and conditions of and execute all documents necessary to effectuate the Amendment Request.
WHEREAS, the Michigan Legislature created the Michigan Economic Growth Authority ("MEGA") under the Michigan Economic Growth Authority Act, 1995 PA 24, as amended, with the authority to grant an authorized business a credit against the tax imposed by the Michigan Business Tax Act, 2007 PA 36, as amended (a “Tax Credit”);

WHEREAS, by Executive Order 2012-9, all of the authority, powers, duties and functions of the MEGA Board were transferred to the Michigan Strategic Fund (“MSF”);

WHEREAS, by MEGA Resolution 2009-116 dated June 25, 2009, the MEGA Board authorized a Retention Tax Credit for General Motors Corporation of up to 100 percent for twenty consecutive years for a maximum of 30,000 Retained Jobs at its facilities throughout the State of Michigan (the “Global MEGA Tax Credit”);

WHEREAS, by MEGA Resolution 2009-201 dated November 17, 2009, the MEGA Board transferred the Global MEGA Tax Credit to General Motors, LLC (“General Motors” or “Company”);

WHEREAS, the Global MEGA Tax Credit was subsequently amended by MEGA Resolution 2009-224, MEGA Resolution 2010-178, MSF Resolution 2012-118, and MSF Resolution 2014-110a;

WHEREAS, in exchange for the Global MEGA Tax Credit, as amended, General Motors agreed to maintain a minimum of 14,600 full-time jobs in Michigan, of which a minimum of 4,000 through a combination of GM, shared services, and contractual employees must be located at the Detroit Renaissance Center, and agreed to invest in its facilities throughout the State of Michigan;

WHEREAS, the Michigan Economic Development Corporation (“MEDC”) provides administrative services to the MSF;

WHEREAS, the Company and the MSF wish to amend the Global MEGA Tax Credit in accordance with the following (collectively, the “Amendment Request”).

(1) The State of Michigan’s obligations under the Global MEGA Tax Credit will be capped for total tax credits that the Company may claim over the life of the Global MEGA Tax Credit (“Tax Credit Limit”). The Tax Credit Limit includes Global MEGA Tax Credits that have already been issued.

(2) In order to assist the MSF and the State of Michigan with budgeting and cash-flow planning, the Company will be required to provide periodic forecasts of its estimated
tax credits earned under the Global MEGA Tax Credit (the “Tax Credit Forecast”). The tax credit claimed by the Company in a tax year will not exceed the estimated tax credit forecasted for that tax year.

(3) The Company, or other subsidiaries of General Motors Company, will make new capital investment of $1 billion over the remaining term of the Global MEGA Tax Credit (the “New Project Investment”).

(4) The Parties will include recapture provisions under which the Company will be required to repay a portion of previously issued tax credits if it does not achieve its New Project Investment by December 31, 2029.

NOW, THEREFORE, BE IT RESOLVED, the MSF Board approves the Amendment Request.

BE IT FURTHER RESOLVED, except as to those provisions that must be revised in order to effectuate the Amendment Request, the terms and conditions of the Global MEGA Tax Credit will remain in full force and effect.

BE IT FURTHER RESOLVED, the MSF Board authorizes the MSF President or the MSF Fund Manager, with only one required to act, to negotiate the final terms and conditions of the Amendment Request and to execute all documents necessary to effectuate the Amendment Request.

The MEDC requests that the MSF Board approve the 2016 Business Incubator Programs Request for Proposals.

Background
Since 2009 the Michigan Strategic Fund (“MSF”) has provided funding to business incubators to stimulate the creation and continued growth of technology-based businesses and jobs by capitalizing on the State of Michigan's growing base of high technology industry, its skilled labor force, its nationally recognized university system, its SmartZones, and its business incubators. For the 2015 fiscal year, the business incubators reported the following results occurred as a result of their activities: 362 companies created (149 companies created in 2014), 15,964 companies served (5369 in 2014), 2500 jobs created (709 in 2014), and $672 million investment ($438 million in 2014). These results reflect levels improved over 2013 and 2014 results. The Michigan Economic Development Corporation (“MEDC”) provides administrative services for the business incubator grants.

The MEDC requests that the MSF release the 2016 Business Incubator Request for Proposals (“RFP”) in the amount of $800,000 to solicit proposals from those organizations associated with a SmartZone or SmartZone satellite that require funding to support their gatekeeper, business accelerator fund, and pre-seed fund activities.

The MEDC anticipates the following proposed timeline for the execution of this RFP:

- Issue RFP to the Public: December 21st, 2015
- Questions due from the Public: December 29th, 2015
- Answers posted to the MEDC web page: January 5th, 2016
- Applications Deadline: January 29th, 2016

The MEDC recommends that the MSF Board approve appointing a Joint Evaluation Committee (“JEC”) to review the proposals submitted and make recommendations to the MSF Board. The following individuals are recommended to be appointed to the JEC to review proposals:

- Fred Molnar, VP Entrepreneurship and Innovation, MEDC
- Margaret McCammon, Portfolio Manager, MEDC
- Nataliya Stasiw, Senior Capital Markets Associate, MEDC
- Denise Graves, University and Services Manager, MEDC
The MEDC recommends that the MSF Board approve the scoring and evaluation criteria attached as Exhibit A to the resolution to be used by the JEC members in their review of proposals submitted in response to the RFP.

**Recommendation**
MEDC Staff recommends that the MSF Board approve the following actions.

1) Allocation of $800,000 million for the program;
2) Approval of the RFP attached as Exhibit A to the resolution;
3) Appointment of the JEC listed above; and
4) Approval of the scoring and evaluation criteria attached as Exhibit A to the resolution appointing the JEC and approving the scoring criteria.

SECTION I
WORK STATEMENT

A) PURPOSE

Public Act 215 of 2005, Section 88k(2) allows the Strategic Economic Investment and Commercialization (“SEIC”) Board to award grants and loans from the 21st Century Jobs Fund for “… basic research, applied research, university technology transfer and commercialization of products, processes and services to encourage the development of competitive-edge technologies to create jobs in the state.” Under Executive Order 2010-8, the Governor ordered the SEIC Board abolished and all powers, duties and functions of the SEIC Board transferred to the Michigan Strategic Fund (“MSF”).

Through this 2016 Business Incubator Request for Proposals (the “Business Incubator RFP”), the MSF Board desires to allocate up to $800,000 (“Award Amount”), disbursed up to 2 years, to non-profit organizations/universities that operate business incubator/accelerator programs AND fulfill the ELIGIBILITY and QUALIFICATIONS below.

This RFP is focused on providing funding for organizations the following activities:

1) For those that require funding to support their gatekeeper, business accelerator fund, and pre-seed fund activities.

B) BACKGROUND STATEMENT AND OBJECTIVES

Since 2009 the MSF has provided funding to business incubators to stimulate the creation and continued
growth of technology-based businesses and jobs by capitalizing on the State of Michigan's growing base of high technology industry, its skilled labor force, its nationally recognized university system, its SmartZones, and its business incubators. The MSF through this RFP continues to encourage this activity.

Funding (in the form of a grant) will be awarded to non-profit organizations/universities through a competitive process in which all submitted proposals will be reviewed by a Joint Evaluation Committee (“JEC”). Results from the JEC review will be provided, in the form of numerical scores and award recommendation(s), to the MSF Board.

C) ELIGIBILITY

- Organizations with MSF/MEDC grants under the business incubator program that end 2/1/2016 or later are not eligible to apply.

- Only organizations that FULFILL the following criteria are eligible to apply. DO NOT APPLY IF YOU DO NOT FULFILL THE FOLLOWING CRITERIA.

Other State of Michigan grant funds are not eligible to meet the match requirement. Letters of financial commitment and proposal support are not required in the proposal though may be requested during the award process.

- **Award and Grant Agreements**

All grant agreements approved by the MSF Board will contain a provision that the Auditor General has access to the books and records, including financial records and all other information and data relevant to the terms of the grant agreement related to the use of the funds.

Successful proposals approved for funding by the MSF Board are subject to the final execution of a legal grant agreement and successful completion of a due diligence review which may include, among other things, a criminal and civil background check of the Applicant and certain key personnel.

Insufficient or inappropriate proposals will not be funded.

- **Award Reporting Requirements**

Progress Reports are due every six (6) months, due in October and April throughout the term of the grant agreement, though metrics reporting is for five (5) years. After the term of the grant agreement the reports are annual reports. For Progress Reports, grantees must report on Milestones, Budget, and Metrics. For the annual reporting, grantees must report on metrics. The grantee is responsible for timely submission of reports that must be submitted electronically though the MEDC Portal.

Monthly Metrics are due monthly and include the following: dollars leveraged (match dollars), new companies created, companies expanded, companies served, jobs created, jobs retained, new investments in companies served (MEDC Funds, federal funds, venture capital, angel funds, bank/loan, owner investment, new sales, other), companies/people attending events. The grantee is responsible for timely submission of reports that must be submitted electronically though MEDC’s Google Docs process.
Delayed, incomplete, or incorrect reporting filed will likely result in a loss of funding to the incubator/accelerator.

Annual site visits are conducted by the MEDC Grant Manager.

- **Overhead Rates**

  The overhead rate (indirect administration costs) for the award recipient is limited to reflect actual overhead, but not greater than 15 percent (15%) of the Award Amount over the lifetime of the grant agreement. Preference will be given to proposals that are able to leverage outside funding sources to reduce overhead expenses for the award recipient.

**SECTION II**

APPLICANTS MUST NOT COMMUNICATE REGARDING THIS RFP WITH MEDC PERSONNEL OR JEC MEMBERS DURING THE ENTIRE PROCESSES THROUGH THE APPROVAL OF THE MSF BOARD APPROVAL. Applicant's proposal must be submitted in the format outlined below. There should be no attachments, enclosures, or exhibits other than those required in the RFP or considered by the Applicant to be essential to a complete understanding of the proposal.    b) **Executive Summary**
The Executive Summary should summarize the information provided in response to paragraphs (a) above and (c) through (h) below. And specifically indicate:

- **THE NAME OF THE APPLICANT ORGANIZATION**
- **THE ELIGIBILITY CRITERIA (See Section I.C. above) AND PROOF OF SUCCESS**
- **THE AMOUNT OF FUNDS REQUESTED**
- **THE AMOUNT OF MATCHING FUNDS**
- **THE TERM (up to 2 years)**
- **THE PURPOSE OF THE FUNDING**
- **TARGETED NUMBERS FOR:**
  - Companies Created

**c) Purpose of Funds**
The Applicant must clearly indicate whether the organization is a non-profit corporation or an institution of higher education. The Applicant must clearly describe how the proposed use of funds will foster the growth of Michigan’s technology based economy and clearly identify the specific competitive edge technology sectors that the Applicant will serve.

The Proposals must clearly indicate how the Applicant will fulfill the following purposes:

1. To assist SmartZone incubators with the following activities: gatekeeping activities (identifying and attracting clients and helping them navigate through the entrepreneurial ecosystem) and supporting BAF and Pre-Seed Fund Applications. Proposals for up to $100,000/year for 2 years may be submitted. Applicant must provide at least a 1-1 match. This funding will only be available to pay the salary of a key person and his/her expenses. The key person must perform the following duties:
   a. Help clients with gatekeeping activities
   b. Help clients with BAF applications and support BAF activities
   c. Help clients with Pre-Seed Funds applications and support Pre-Seed Fund activities
   d. Must provide resume of key person (and contingent upon approval of MEDC). This person should have at least one year experience working for a technology start-up or early stage company. If not, must provide a process whereby this person is coached by an approved service provider such as SBDC to work with technology companies.
   c. This person will be the key person on the grant agreement and attend SmartZone meeting.
   f. The proposal must identify the need for such a person, how the person meets the need, and how the person will carry out his/her responsibilities.

**d) Past Experience**
The Applicant should indicate past experience with technology based business incubation/acceleration.

**e) Team**
Summarize key personnel, their time commitment to the project, their specific responsibilities, and their value. Identify collaborative partners, their responsibilities, and value. Must include RESUME of key person. Key person must have at least one-year experience working for a
technology start-up or early stage company, or include a process whereby he/she will work with an approved service provider for coaching and guidance.

f) Milestones/Deliverables
Identify semi-annual milestones/deliverables that the Applicant will commit to as a result of providing the proposed services. If Applicant is awarded funding, Progress Reports are due April 15 and October 15 every year throughout the award, therefore provide milestones/deliverables that will be completed in April and October over the course of the proposal. Include a “targeted metrics” milestone for each reporting period. For this milestone, the applicant should indicate a targeted number for each of the following metrics: companies created, jobs created, and follow on funding. Identify how milestone completion will result in specific Economic Impact identified in (h).

Additionally, Applicants selected for funding will be required to submit monthly performance metrics to measure the effectiveness of the program; these metrics include, but are not limited to: dollars leveraged, new companies created, companies expanded, companies served, jobs created, jobs retained, new sales, and funding obtained by client companies, including amount and source of such funding (sources including state funds, federal funds, venture capital, angel funds, bank/loan, owner investment, other), as well as the names and amounts of companies funded by the program.

g) Budget Request
Attach a schedule of all expenses covering each of the services and activities identified in your proposal. Specifically identify THE AMOUNT OF FUNDS REQUESTED, the TERM REQUESTED, PUBLIC AND/OR PRIVATE LEVERAGED FUNDS (identify the 1:1 match), and what the Applicant proposes to do with FUNDS APPLIED THROUGH THIS RFP and the TIMING OF THE FUNDS. Progress Reports are due in April and October so proposals should include 6-month budgets of relevant line items that align with these dates. Include the budget in a table format with column headings, Start of grant—4/1/2016-9/30/2016, etc. and rows should include the expense line-items. Budget line-items should be only for the pay and expenses of the key person.

h) Economic Impact
Identify the targeted number of companies created, jobs created, and follow on funding or increases in investment/revenue resulting from the services. Include justification and assumptions related to these expectations. You will be held responsible for delivering these specific numbers in your semi-annual Progress Reports. Explain how you define success and will deliver a successful program. Identify how you will make an economic development impact and be sustainable.

B) PROPOSAL SUBMITTAL
Submit an electronic version of your proposal (one document that includes contact page, check list page and proposal) to the MSF via email to contractsandgrants@michigan.org not later than 3:00 p.m. on January 29th, 2016. The MSF has no obligation to consider any proposal that is not timely received. Proposals will not be accepted via U.S. mail or any other delivery method.

MEMORANDUM

Date: December 15, 2015

To: MSF Board

From: Fred Molnar, VP, Entrepreneurship and Innovation

Subject: Michigan Small Business Development Center Strategic Service Provider (SSP)

MEDC Staff recommends the MSF Board approve an award in the amount of $1,350,000 to the Michigan Small Business Development Center (SBDC) to fund the continuation of the Strategic Service Provider (SSP) Program in order to develop entrepreneurial talent, increase access to business capital, build capacity within the entrepreneurial ecosystem, and promote an entrepreneurial culture in Michigan through the acceleration of innovation.

BACKGROUND TO AWARD

Under the authorities created by the Michigan Strategic Fund Act (“Act”), MCL 125.2088k, and transferred to the Michigan Strategic Fund (“MSF”) by Executive Order 2010-8, the MSF is charged with awarding grants and loans for basic research, applied research, university technology transfer, and commercialization of products, processes and services to encourage the development of competitive edge technologies to create jobs within the State of Michigan.

The SBDC was previously awarded corporate funding for the SSP Program for the period of January 01 2013 to December 31 2015, at a total award value of $4,600,000. In executing this Program the SBDC regularly exceeded key milestones and consistently rated among the highest in the MEDC customer satisfaction evaluation.

After constructing the Strategic Service Provider Grant Eligibility Requirements and initiating the competitive process, it was determined that only one non-profit entity within the State of Michigan could successfully satisfy the Strategic Service Provider Grant Eligibility Requirements. These requirements are:

- Must be a non-profit entity located within the State of Michigan
- Must have an existing statewide infrastructure
- Must be able to provide services as required across the State of Michigan
- Must have a proven track record in relevant activities and validated outcomes.
- Must demonstrate significant partnership activities with the Small Business Administration.

PROGRAM RESULTS

The SBDC has operated as a non-profit entity located within the State of Michigan since 1995 and earned full accreditation by the Association of Small Business Development Centers in 2006. Since 2007 SBDC has has been a strong partner of MEDC and in 2012 was again recognized by
Accreditation from the Small Business Development Center in accordance with the specifications set forth by the Small Business Administration and the Association of Small Business Development Centers. This recognition reflects the fact that over time the organization has generated an extensive and efficient statewide infrastructure that has resulted in a strong track record for the promotion of an entrepreneurial culture within the State of Michigan.

The purpose of the SBDC SSP Program is to foster an entrepreneurial culture and accelerate innovation within the State of Michigan by providing training to develop entrepreneurial talent, increase access to capital through networking optimization and pitch coaching, and build capacity within the entrepreneurial ecosystem through strategic development and market research education. The SSP Program reports on, and disbursement is guided by, metrics including job creation, capital formation and business start-ups. The SBDC consistently meets or exceeds these metrics and cumulative results for January 2014 to September 2015 include 58,813 counseling hours for 7,154 distinct clients and 10,076 client trainings, resulting in 3,930 jobs created, $301,683,610 in capital formation and 593 business start-ups.

Subject: University Technology Acceleration and Commercialization Program (UTACP) Refunding Request

MEDC Staff recommends the MSF Board approve a grant amendment for an extension of one year and refunding in an amount totaling $2,300,000 for two UTACP programs; the Technology Transfer Talent Network (T3N) $1,000,000 and Michigan Corporate Relations Network (MCRN) $1,300,000.

BACKGROUND TO AWARD
Under the authorities created by the Michigan Strategic Fund Act (“Act”), MCL 125.2088k, and transferred to the Michigan Strategic Fund (“MSF”) by Executive Order 2010-8, the MSF is charged with awarding grants and loans for basic research, applied research, university technology transfer, and commercialization of products, processes and services to encourage the development of competitive edge technologies to create jobs within the State of Michigan.

On June 24, 2014, the MSF selected the UTACP, specifically the T3N and MCRN programs to receive a grant for continuation of the programs in the amount of $2,825,000 (Resolution No. 2014-071), with the option to extend the term of the grants for up to an additional three one year terms and to add additional funding at the sole discretion of the MSF. This amount is governed under the terms and conditions of a Grant Agreement. The Grant Agreement term for T3N ends on December 15, 2015. The Grant Agreement term for MCRN ends on December 31, 2015. The T3N and MCRN state-wide programs support acceleration of the transfer of technology from universities to the private sector. T3N with mentors, postdocs and fellows and MCRN with matching funds to small companies collaborating with universities, interns and a university research portal for industry.

PROGRAM RESULTS
The T3N program is a collaboration of 7 universities (UM, MSU, WSU, WMU, Oakland, GVSU and MTU) supporting the commercialization of university projects into licenses and/or startup companies. The support is by way of mentors in residence, postdocs and fellows. Since its inception in 2011, the program has created more than 200 jobs, started 38 new companies, attracted more than $28,000,000 in follow on funding, signed 37 licenses and commercialized several products.

The MCRN program is a collaboration of 6 universities (UM Ann Arbor, UM Dearborn, MSU, WSU, WMU, MTU) including the University Research Corridor (URC) supporting the interaction between small companies and public universities in the state of Michigan. The support is by way
of matching funds to support new projects, interns and a research portal. Since its inception in 2011, the program has created more than 300 jobs, served over 300 companies, attracted more than $56,000,000 in follow on funding and received over 6,000 portal visits.

B) BACKGROUND STATEMENT AND OBJECTIVES

Background:

The Pure Michigan International Trade program assists Michigan based companies to expand their customer base through a variety of international trade services that lead to international market expansion. The program focus is on small and medium-sized enterprises (see the United States Small Business Association’s standards at https://www.sba.gov/content/small-business-size-standards), but will also assist larger companies if the assistance will have a clear and identifiable economic impact. The Pure Michigan International Trade program will enter into a fixed fee contract for trade promotion services at a non-negotiable amount. The total contract amount will be for a maximum $780,000 annually. Operating costs, including staff salaries, office space/rent, office equipment, office supplies, postage, printing, telephones, local transportation and all other costs unless otherwise noted, will be the sole responsibility of the Contractor and derived from the contract fee. participating State visits, or for additional pre-authorized expenses incurred for activities outside of
the scope of the Contractor's contract with the MSF.

The expected term of the contract is three years, with an option for the MSF to extend the contract

In the event, however, that the action of the State Legislature, the State of Michigan or MSF results in an immediate absence or termination of funding, this Agreement may be terminated effective immediately upon delivery of notice to the Contractor. In the event of immediate termination of funding, the MSF will make payment through the effective date of termination for any undisputed services rendered and expenses incurred.

The MSF shall have no obligation to Contractor for any fees or other payments incurred in connection with this Agreement after the effective date of termination. Contractor acknowledges that all information provided by the MSF or the MEDC in connection with Contractor’s duties under this Agreement shall be treated as Confidential Information unless otherwise stated in this subsection.

M) Conflict of Interest

Except as has been disclosed to the MSF or the MEDC, Contractor affirms that neither the Contractor, nor its Affiliates or their employees has, shall have, or shall acquire any contractual, financial business or other interest, direct or indirect, that would conflict in any manner with Contractor’s performance of its obligations under this Agreement or otherwise create the appearance of impropriety with respect to this Agreement.

Contractor further affirms that neither Contractor nor any affiliates or their employees has accepted or shall accept anything of value based on an understanding that the actions of the Contractor or its affiliates or either’s employees on behalf of the MSF or the MEDC would be influenced. Contractor shall not attempt to influence any MEDC or MSF employee by the direct or indirect offer of anything of value. Contractor also affirms that neither Contractor, nor its Affiliates or their employees has paid or agreed to pay any person, other than bona fide employees and consultants working solely for Contractor or its Affiliate, any fee, commission, percentage, brokerage fee, gift or any other consideration contingent upon or resulting from the execution of this Agreement.

In the event of change in either the interests or services under this Agreement, Contractor will inform the MSF or the MEDC regarding possible conflicts of interest which may arise as a result of such change. Contractor agrees that conflicts of interest shall be resolved to the MSF’s or the MEDC’s satisfaction or the MSF may terminate this Agreement. As used in this Paragraph, “conflict of interest” shall include, but not be limited to, conflicts of interest that are defined under the laws of the State of Michigan.

P) **Irreparable Injury**

Contractor acknowledges that if it breaches any of its obligations under Paragraphs L and O above, it will cause damages of an irreparable and continuing nature to the MSF, for which money damages alone will not provide adequate relief. Therefore, in addition to all appropriate monetary damages, the MSF is entitled to obtain injunctive relief, including, but not limited to, a temporary restraining order to prohibit the Contractor's continuing breach. The MSF shall have the right to obtain such relief without having to post any bond or other surety.

Contractor shall purchase and maintain such insurance to protect the Indemnified Parties from claims that might arise out of or as a result of Contractor's operations. Contractor will provide and maintain its own errors and omissions liability insurance for Contractor's indemnification obligation under this Agreement. The insurance shall be written for not less than One Million Dollars ($1,000,000) of coverage, but Contractor’s indemnification obligation
is not limited to this amount.

This Agreement may not be changed except by written agreement signed by the Parties.

S) **Assignment/Transfer/Subcontracting**

Contractor shall not assign, transfer, convey, subcontract, or otherwise dispose of any duties or rights under this Agreement without the prior specific written consent of the MSF. Contractor agrees that any of Contractor’s future successors or subcontractors will be bound by the provisions of this Agreement, unless the MSF otherwise agrees in a specific written consent. The MSF reserves the right to approve subcontractors for this Agreement and to require Contractor to replace subcontractors who are found to be unacceptable to the MSF or the MEDC.

T) **Non-Discrimination and Unfair Labor Practices**

In connection with this Agreement, Contractor shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, MCL 37.2101 *et seq.*, the Persons with Disabilities Civil Rights Act, 1976 PA 220, MCL 37.1101 *et seq.*, and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment with respect to his or her hire, tenure, terms, conditions, privileges of employment, or any matter directly or indirectly related to employment because of his or her race, religion, color, national origin, age, gender, height, weight, marital status, or physical or mental disability unrelated to the individual's ability to perform the duties of a particular job or position. Contractor further agrees that every subcontract entered into in connection with this Agreement will contain a provision requiring nondiscrimination in employment, as required in this Agreement, binding upon each subcontractor.

Pursuant to 1980 PA 278 (the “Act”), MCL 423.321 *et seq.*, the State shall not award a contract or subcontract to an employer whose name appears in the current register of employers failing to correct an unfair labor practice compiled by the United States National Labor Relations Board. Contractor, in relation to this Agreement, shall not enter into a contract with a subcontractor, manufacturer, or supplier whose name appears on this register. Pursuant to section 4 of the Act, the MSF may void this Agreement if, after the Starting Date, the name of the Contractor as an employer or the name of the subcontractor, manufacturer or supplier of Contractor appears on the register.

A breach of this Paragraph constitutes a material breach of this Agreement.

U) **Jurisdiction**
The laws of the State of Michigan shall govern this Agreement. The Parties shall make a good faith effort to resolve any controversies that arise regarding this Agreement. If a controversy cannot be resolved, the Parties agree that any legal actions concerning this Agreement shall be brought in the Ingham County Circuit Court in Ingham County, Michigan, USA. By signing this Agreement, Contractor acknowledges that it is subject to the jurisdiction of this court and agrees to service by first class or express delivery wherever Contractor resides, in or outside of the United States.

V) **Compliance with Laws**

Contractor shall comply with all applicable state, federal and local laws and ordinances in providing the services under this Agreement.

W) **No Partnership or Agency Relationship**

This Agreement does not create a partnership relationship. Further, neither Contractor nor Contractor’s employees or other representatives shall hold themselves out to third parties as an agent or representative of the State of Michigan, the MSF or the MEDC, nor shall they have any authority to take any action or enter into any agreement on behalf of the State of Michigan, the MSF or the MEDC.

Y) **Counterparts**

This Agreement may be executed in one or more counterparts and by facsimile, each of which shall constitute an original, and all of which together shall constitute one and the same instrument.

If this Agreement is terminated as a result of the misuse of funds as reasonably determined by the MSF, MSF shall have no further obligation to make any payments to Contractor. Furthermore, Contractor shall reimburse MSF for payments which were expended for purposes other than those described in this Agreement, as well as any funds which were previously disbursed under this Agreement but not yet expended by Contractor.

AA) **Survival**

The terms and conditions of sections III, V(B), V(E), V(F), V(G), V(H), V(I), V(L), V(O), V(P), V(Q), V(S), V(U), V(W), V(X) and V(Z) shall survive termination of this Agreement.

MEMORANDUM

Date: December 15, 2015

To: Michigan Strategic Fund (“MSF”) Board Members

From: Marcia Gebarowski, Senior Development Finance Manager

Subject: Challenge Manufacturing Company, LLC (“Company” or “Applicant”) Amendment to the Michigan Business Development Program Performance-based Grant

REQUEST:
This is a request to reduce the base employment and value of BDP to the Company’s grant agreement.

Background
On May 27, 2014, the Michigan Strategic Fund (MSF) approved a MBDP performance-based grant in the amount of $2,500,000 for the Company to create 450 new jobs in the City of Pontiac. This project was the second MBDP incentive for the Company. The Company also received a $1 million MBDP grant on March 11, 2013 to create 180 new jobs at their existing Kentwood facility in west Michigan.

After completing their first MBDP grant for the project in Kentwood, the Company was expected to have a statewide employment base of 1,852. At the time of application for their second project in the City of Pontiac, the Company’s statewide base employment was set at 2,024, an all-time high for the company as a result of exceeding their job creation goal for their Kentwood project.

Subsequent to MSF approval of their second project, Challenge planned a temporary shut-down at one of their Kentwood plants aligned with a GM shutdown for retooling. Upon re-opening, due to the low unemployment in the region, not all employees returned as they had found other employment during the down time, resulting in a drop in total employment for the Company. Shortly after, Challenge was faced with having to further reduce their workforce as a result of GM reducing Cadillac production in Lansing.

Challenge has continued to fall short on their required employment levels primarily because of the low unemployment rate in Kentwood and surrounding area. The Company is required to maintain 180 Qualified New Jobs, and after two cure periods, the Company remained at 133 total Qualified New Jobs at the end of their second cure period on September 15, 2015. This reduction resulted in a repayment event of $262,000 back to the MSF. Staff is recommending that this repayment be forgiven, and in lieu of this repayment, the award under grant #2 be reduced by $262,000.
A reduction of the Company’s base employment to their second MBDP grant for the Pontiac project will ensure they are eligible to collect their grant disbursements specific to the Pontiac project only if they meet newly revised performance milestones. The amendment to their base employment resulted in a revision to the Company’s disbursement schedule in their term sheet which now requires a higher number of performance metrics in order for the Company to receive their full award. The disbursement milestones now are no longer front-loaded, making it a more conservative approach in disbursement of funds.

The Pontiac facility will be equipped to provide a completely different product than what is produced in their west Michigan facilities. A reduction to their base employment for the Pontiac project does not impact their west Michigan facilities and there is minimal risk of employees in west Michigan transferring to Pontiac based on distance between these facilities.

**Recommendation**

MEDC Staff recommends the following (collectively, “Recommendation”):

a) Terminate the Company’s Grant Case-40794 (Challenge Mfg. Company / Kentwood project); and

b) Amend the Base Employment for Case-99589 Agreement (Challenge Manufacturing Company, LLC / Pontiac project) from 2,024 to 1,805; and

c) Reduce the grant amount for Case-99589 from $2,500,000 to $2,238,000; and

d) Commitment will remain valid for 120 days with approval for MSF Fund Manager to extend the commitment an additional 60 days.

MSF Incentive Performance-based Grant Request

Summary

This is a request to transfer $500,000 from the MBD Program for a performance-based grant to Invenergy under MCL 125.2088b(2)(c) of the MSF statute. This request will offset a portion of the Company’s risk of investment into the project, in the event the project does not move forward.

Background

Invenergy became involved in the state-wide energy related discussions regarding the Upper Peninsula in 2014 as it worked with Cliffs to develop an on-site cogeneration facility to power Cliff’s mining operations. In light of the impending closure of the Marquette, WI Presque Isle Power Plant (PIPP) both Cliffs and the State were motivated to find a generation solution that would cost less than the proposed set of transmission upgrades recommended by Midcontinent Independent System Operator, Inc. (MISO). The MISO solution is estimated to cost over $500 million.

The Invenergy solution involves an agreement to build a UP cogeneration facility and to retire the PIPP. In order to ensure that the UP Cogen project can be built in time to replace PIPP and forestall the MISO solution, Invenergy has entered MISO’s Definitive Planning Phase for related studies and paid a deposit for potential upgrade costs.

Invenergy has agreed to proceed with the initial development of the UP Cogen Project despite not having a definitive energy supply contract with Cliffs. The MEDC support will help offset a portion of their deposit in the event that the UP Cogen Project does not proceed.

The MEDC legal unit has completed a civil and criminal background check for the entity and individuals related to this project.

Recommendation

MEDC Staff recommends the following (collectively, “Recommendation”):

a) Approval of the Award Request as outlined in the attached term sheet (collectively, “Term Sheet Proposal”);

b) Closing the Incentive Proposal, subject to available funding at the time of closing (“Available Funding”), satisfactory completion of due diligence (collectively, “Due Diligence”), finalization of all transaction documents; and
c) Commitment will remain valid for 120 days with approval for MSF Fund Manager to extend the commitment an additional 60 days.

To: Michigan Strategic Fund Board

Subject: MSF Designated Renaissance Zone
   Project Title – Sakthi Automotive campus expansion
   City of Detroit

SUMMARY
This is a request to approve an MSF Designated Renaissance Zone for fifteen (15) years in the city of Detroit for the Sakthi Automotive campus expansion project. At the April 28, 2015 board meeting, the MSF approved the project for a $3.5 million BDP grant, which will create 350 Qualified New Jobs and invest $31.8 million in the city of Detroit. The renaissance zone designation was part of the project description at the time of BDP approval, making this request the final piece to the completion of this project.

COMPANY BACKGROUND
The Sakthi Group is a $1.2 billion industrial conglomerate and one of the fastest growing business groups in South India. The Sakthi Group has a strong market presence in a number of markets with a host of group companies operating under its umbrella, including sugars, industrial alcohol, dairy, transportation and IT Services. Sakthi Automotive is one of the Sakthi Group’s vertical operations which produces automotive components. They are a major supplier of critical components to auto OEM’s, including steering knuckles, brake drums, brake discs, hubs, brake calipers and carriers. Sakthi Automotive started their first project in North America in 2013 when they acquired the former Arvin Meritor building in the city of Detroit and currently employ around 200 at the facility.

PROJECT BACKGROUND
Sakthi Automotive has been awarded new business with plans to produce lightweight aluminum castings that will support major initiatives of their customers to reduce the mass of vehicles, increase fuel efficiency, and reduce emissions. Over time, these casting operations are expected to evolve to machine castings which are currently made at facilities overseas to over 90% of castings being made and machined in Detroit.

Through a 50% owned limited liability company, Sakthi has acquired numerous parcels of land surrounding their headquarters along Fort Street with intention of creating a campus to house the planned growth over the next 3-5 years. The Company’s acquisition of the buildings at 100-150 American Way will be used to expand their machining operations to support this new business and approximately 1.5 acres of vacant land for future expansion.

Sakthi also acquired the former Southwestern High School property (between 6401 W. Fort headquarters and 150 American Way) to construct a 180,000 square foot aluminum casting and machining facility on the southerly portion of the site. A portion of the existing school building is expected to be renovated into a technical training center and employee wellness center for the growing Sakthi campus.
Sakthi received competing incentive offers from Georgia, Ohio, and South Carolina which included free land, low-interest construction loans, job creation tax credits and training grants. Incentives offered by these states, coupled with lower operating costs including lower property taxes, presented favorable options to locate the new castings operations.

The Renaissance Zone footprint would be 37.604 acres located near 6401 W. Fort Street and 150 American Way in the City of Detroit.

**PROJECT DESCRIPTION**
The City of Detroit has made application on behalf of Sakthi Automotive Group USA for an MSF Designated Renaissance Zone for a 15 year designation. The request is for 37.604 acres currently. A portion of the land proposed to be located in the new zone is currently located in the Southwest Delray subzone of the City of Detroit renaissance zone. The subzone is set to expire December 31, 2016. Sakthi will enter into an agreement to terminate the current subzone upon the effective date of the proposed new renaissance zone.

To: Michigan Strategic Fund Board

From: Daniel Leonard, Community Assistance Specialist

Christine Whitz, Manager, Community Development Block Grant Program

Subject: Charlevoix County Brownfield Redevelopment Authority, City of Boyne City
Community Incentive Program — Act 381 Work Plan Approval

Dilworth Hotel Building Rehabilitation Project
Community Development Block Grant Program
City of Boyne City, Charlevoix County

Request
In order to alleviate Brownfield conditions and prepare the proposed project site for redevelopment, the County of Charlevoix Brownfield Redevelopment Authority is seeking approval of local and school tax capture for Michigan Strategic Fund (MSF) eligible activities in the amount of $253,884.

The eligible activities will alleviate Brownfield conditions across the site and make it suitable for redevelopment, and protect human health and the environment. Without Brownfield tax increment reimbursement, the cost burden related to Brownfield conditions would make the project financially unfeasible.

Additionally, the City of Boyne City is requesting $1,000,000 in Community Development Block Grant (CDBG) funds for blight clearance and job creation associated with the Dilworth Hotel Building Rehabilitation Project.

Approximately 30 permanent full-time jobs are anticipated to be created by the commercial portion of the project at an average hourly wage of $10, the minimum hourly wage for these jobs being $8.15. The total private investment for CDBG purposes will be approximately $6.9 million, with overall capital investment totaling $9.8 million.

Background
This significant historic building has been considered by past development teams, but ultimately never taken on due to the significant construction costs. Given the renovation costs, which exceed more than twice the appraised value of the site itself, the financial support for this project is primarily being addressed through the leverage of the applicant’s private equity. To date, the applicant has secured the site from private means as well as will contribute additional cash equity in the form of approximately $500,000. Of the $7.8 million in total project costs, the project has secured roughly $6.3 million in debt leveraging the equity of the building, business and historic tax credits associated with the work necessary to stabilize the structure.
Without the assistance of the MSF, the financial viability of this project would be severely compromised and not possible to complete, let alone become a sustained business within the community.

The 103 year old Dilworth Hotel opened in 1912 and has been listed on the National Register of Historic Places since the mid-1980s. The three-story, 26-room hotel is located on one of the most prominent lots in the heart of downtown Boyne City. At approximately 28,000 square feet, the building has seen a series of operators over the years unsuccessfully run the hotel and restaurant. The building has sat vacant for more than five years and is in danger of physical deterioration beyond repair. The property is currently owned by Bob Grove, the owner of Tall Pines, LLC, which is a single-use entity solely responsible for the redevelopment of this historic asset within downtown Boyne City. Mr. Grove’s professional background is comprised of industrial manufacturing of copper and more specifically, the operation of his company Nu-Core. Nu-Core, based in nearby Charlevoix, manufactures large-scale ultra-high powered electrical bus systems and specialty copper components servicing steel, fiberglass, chlorine, chemical and other electrical energy industrial processes worldwide. Mr. Grove is working with a local operator, Hotel Investment Services, on this project to address the specific needs of both this unique historic structure as well as the market trends within northern Michigan. Hotel Investment Services currently manages 22 hotels, of which the majority are located within the State of Michigan.

The building played an active role in Boyne City’s history and is a historic asset for the community. The goal of this project is to return the Dilworth Hotel to its historic use as a hotel and restaurant. The restoration of the Dilworth will be a tremendous economic boost for Boyne City. It will serve as a catalyst for the downtown, increase pedestrian traffic, vastly improve the entry into downtown, and will provide needed hotel accommodations. Specifically, the rehabilitation will include exterior renovations, such as site improvements, landscaping, masonry and brick restoration, windows and doors, porch, site utilities, roofing and thermal/moisture protection. Complimenting interior renovations include fire suppression, elevator updates, demolition, new HVAC, plumbing, electrical, safety/security systems, finish carpentry/millwork, interior doors and windows hardware, finish work/drywall, flooring, painting, and supplemental equipment, furnishings and fixtures in guest rooms, restaurant, pub, lobby furnishings, and veranda furnishings and fixtures. The entirety of the project will be subject to historically correct restoration efforts.

Prior to construction, it is necessary to alleviate Brownfield conditions with the removal of lead and asbestos abatement, as well as significant select interior demolition. These activities will alleviate Brownfield conditions across the site and make it suitable for redevelopment and protect human health and the environment.

**Other State and Local Assistance to the Project**
Locally, the project will benefit from the reimbursement of DDA TIF revenues for façade improvements, fire suppression, and barrier free access in the amount of at least $700,000. The subject property also anticipates historic tax credits in the amount of $1,340,928 to assist with renovation efforts tied to the development plan of the new Dilworth Hotel project.

Act 381 Key Statutory Criteria are addressed in Appendix A. CDBG program specific requirements and screening guidelines are addressed in Appendix B. Project area map, including photos, are provided in Appendix C.
**Recommendation**

The MEDC recommends:

a) Approval of the request by County of Charlevoix Brownfield Redevelopment Authority to capture local and school taxes for the MSF eligible activities totaling $253,884. Utilizing the current state to local capture ratio, the amount of school tax capture for this project is estimated at $253,884.

b) A CDBG grant agreement in the amount of $1,000,000 to be authorized for the City of Boyne City for the Dilworth Hotel building rehabilitation project.
APPENDIX A – Key Statutory Criteria

Act 381 requires the following information to understand and explain the benefits of the project.

a) **Overall Benefit to the Public:**
   The redevelopment of the Dilworth Hotel will restore and reactivate a historic resource in downtown Boyne City which has been inoperable for many years. This asset will bring both a new service industry to the City, additional new jobs, and increased taxable value.

b) **Jobs Created (Excluding Construction and other Indirect Jobs):**
   This project is expected to create approximately 30 new, full-time jobs within the community with an expected average hourly wage of $10.

c) **Area of High Unemployment:**
   The County of Charlevoix’s unadjusted jobless rate was 4.1% in September 2015.

d) **Level and Extent of Contamination Alleviated:**
   The project is not qualifying as a facility and the level of contamination is unknown.

e) **Reuse of Functionally Obsolete Buildings and/or Redevelopment of Blighted Property:**
   This redevelopment project will reactivate a currently vacant and historic property to accommodate a 26 room hotel and its accompanying restaurant, bar and banquet facility.

f) **Cost Gap that Exists between the Property and a Similar Greenfield Property:**
   The Brownfield TIF is needed to financially alleviate the cost burden associated with the required lead and asbestos abatement, and select demolition efforts.

g) **Whether Project will Create a New Brownfield Property in the State:**
   No new Brownfields will be created by this project.

h) **Whether the Project is Financially and Economically Sound:**
   From the materials received, the MEDC infers that the Work Plan is financially and economically sound.

i) **Other Factors Considered:**
   No additional factors need to be considered for this project.
**Property Eligibility**
The project is located within the boundaries of the City of Boyne City, which is a Qualified Local Governmental Unit, and has been deemed functionally obsolete as verified by a level 3 Assessor on April 11, 2011.

The property is the subject of a Brownfield Plan, duly approved by the County of Charlevoix on May 7, 2015 and concurred with by the City of Boyne City on May 26, 2015.

**Tax Capture Breakdown**
There are 24 non-homestead mills available for capture, with school millage equaling 24 mills (100%). The local millage equals 27.0109 mills, which will all be captured by the local DDA. These captured mills will be contributed directly back to the project via local support. Tax increment capture will begin in 2016 and is estimated to continue for 4 years. The requested tax capture for MSF eligible activities breaks down as follows:

APPENDIX B – CDBG Programmatic Requirements & Screening Guidelines

Program Requirements
The project was evaluated utilizing the CDBG requirements. It has been determined that the project meets the following requirements to qualify as an eligible project under the CDBG program:

- **National Objective(s):**
  This project qualifies for CBDG funding as the project activities are expected to result in the creation of thirty (30) full time positions over the next two years. The business has agreed that at least 16 of the 30 positions will be held by low to moderate income persons. The project meets a national objective by providing benefit to at least 51 percent low and moderate income persons. The CDBG cost per job is $15,000, with a minimum wage of $8.15 per hour.

  This entire project qualifies for CBDG funding as the project meets the definition of blight as defined in the Brownfield Redevelopment Financing Act 381 of 1996, MCL 125.2652 (e)(i-iv) and (vii). The project meets a national objective by eliminating or preventing slums and blight on a spot basis.

- **Eligible Activity:**
  This project involves eligible activities identified in Section 105(a)(4) of Title I of the Housing and Community Development Act of 1974, as amended.

Screening Guidelines:
The project was evaluated utilizing the CDBG guidelines. It has been determined that the project meets the following standards to qualify as an eligible project under the CDBG program:

- **Economic Impact:**
  The economic impact of this project was evaluated. It was determined that the project is:
  - Located in a highly visible location
  - Located in a DDA or other like districts

  The Community has:
  - Local organizational capacity to successfully complete this project
  - A full-time downtown development professional or community staff member able to administer the project
  - Adopted a downtown development plan
  - Engaged with the RRC program and is nearly complete with their certification
  - Been designated as a MainStreet Community; and

  The revitalization of this building and its new usage will facilitate a market need of downtown Boyne City with the hotel operations as well as banquet space for patrons of the community.

- **Minimum Local Participation:**
  The City of Boyne City will make an anticipated contribution of at least $700,000 which is roughly ten percent (10%) of the total clearance-rehabilitation costs. The funds will be provided by the City’s Local Building Redevelopment Incentives Program from their DDA.
• **Minimum Leverage Ratio:**
  The private leverage contribution, to be provided by Tall Pines Partners, LLC equals $6,876,787, which results in a leverage ratio of approximately 6.9:1 of the CDBG grant.

• **Financial Viability and Background Check:**
  The business receiving the benefit from this project has completed a background check with no concerns and has been determined to be financially viable.

The MEDC staff has concluded that the project meets the minimum program requirements and screening guidelines to be eligible under the CDBG program.

                Request for Approval of an Act 381 Work Plan
                Offsite Lake Drive, L.L.C. - Request for Approval Michigan Community
                Revitalization Program Other Economic Assistance – Performance Based
                Loan Participation

Request
The proposed project will be undertaken by Bazzani Associates on behalf of Offsite Lake Drive, L.L.C. The project will redevelop approximately one acre of property located at 1415 Lake Drive SE in the City of Grand Rapids. The project is located in a traditional commercial center and within a Corridor Improvement District and qualifies for a Michigan Community Revitalization Program (MCRP) award and an Act 381 Work Plan because it is functionally obsolete and a historic resource.

In order to alleviate Brownfield conditions and prepare the proposed project site for redevelopment, the City of Grand Rapids Brownfield Redevelopment Authority is seeking approval of local and school tax capture for MSF eligible activities in the amount of $1,648,060.

Offsite Lake Drive, L.L.C. is requesting approval of a MCRP incentive in the amount of $1,773,700 in the form of an Other Economic Assistance – Performance Based Loan Participation.

The subject parcel was originally designed by architect George S. Kingsley, in 1926, as a five-story storage building, commonly referred to as the Kingsley Building. Due to the building’s original design as primarily storage space, the building has very few window openings, poorly spaced interior support columns, and low ceilings on the second floor. To prepare the property for residential use the building requires heavy investment in now income producing development such as creating spaces in the walls for windows, development of a central atrium on each floor for circulation purposes, the addition of two new elevators and shafts, new stairwells, and new HVAC and electrical systems. The development team made several attempts to obtain Federal Historic Tax Credits for the upper stories of the project. These credits could have helped to fill a significant portion of the financing gap. However, due to the need to create adequate window openings for residential occupancy, the Secretary of the Interior could not approve the physical alteration of the building’s exterior for this land use and award the tax credits. Without the
Federal Historic Tax Credits, this project requires gap financing to support the initial costs of rehabilitation of the structure.

Offsite Lake Drive has obtained senior financing from Lake Michigan Credit Union (LMCU) in the amount of $8,535,000 (includes financing for Phase 1/1st floor), or just under 66% of the total project costs. The loan is less than traditional loan-to-value advance rates of between 70-80%, but this loan amount is limited by the cash flow generated by the development. It is anticipated that the owners of the project will be contributing over $2,270,000 in equity (approximately 17.5% of total project costs) to the project and deferring “Developer Fees” of 200,000. The remaining gap would be filled by the proposed MCRP Loan Participation in the amount of $1,773,700. The MSF Share of the loan would bare an interest rate of 1.5% per annum, with a “Success/Exit” fee of $134,000 due at closing. The interest earned and the fee on the MSF loan will generate approximately a 3% return for the MSF over the term of the loan. CRP detailed structure is provided in Appendix A.

For the requested brownfield work plan, the eligible activities will alleviate Brownfield conditions across the site and make it suitable for redevelopment, and protect human health and the environment. Without Brownfield tax increment reimbursement, the cost burden related to Brownfield conditions would make the project financially infeasible.

The Applicant anticipates that the project will result in total Phase Two capital investment in the amount of $11,341,938, along with the creation of approximately two permanent full-time equivalent jobs with an average hourly wage of $17.50.

**Background**
The Kingsley Building rehabilitation project will include a significant overhaul of the building’s interior and exterior. As much of the historic façade will be preserved as possible, while also creating new window openings across all facades, to accommodate adequate flow of light and air into the building. The project will result in 41 new residential units on floors three through five ranging from 650 square feet to 1,050 square feet in size. The second floor of the structure will be working suites and storage, which may be leased by the residential occupants as a live-work option within the same building. Additionally, the project will include construction of a multilevel parking deck and conversion of the existing basement to parking.

In 2011, this developer was awarded a MBT mini credit in the amount of $181,250 that was specific to Phase One of this project which included only the ground floor of this structure. At that time, the development team was only able to secure financing sources adequate to repurpose the ground floor of the structure. In 2014, the developer completed the ground floor retail spaces and obtained a certification of completion to collect the credit. This MBT credit award has been factored in to the overall financial review of the current request for CRP and work plan support.

As part of the brownfield eligible expenses to be incurred, asbestos abatement will be necessary prior to demolition activities in order to protect human health. Demolition activities will be necessary to create adequate window openings and reconfigure the floor layout to accommodate residential use. Site preparation activities will include excavation, grading and land balancing to accommodate the basement
and two level parking deck. A private parking ramp and urban stormwater management system will be constructed as part of the infrastructure improvements. Additionally, infrastructure improvements will be made in the public right-of-way in connection with the project and will include curbs, gutters and sidewalk improvements.

As noted above, Offsite Lake Drive, L.L.C. has received a mini MBT credit in 2011 in the amount of $181,250 for the purpose of rehabilitating only the ground floor of the Kingsley Building for retail use. The sponsoring development team is Bazzani Associates which has been the lead development team on several projects across the State. This includes a project known as Wesener LLC in Owosso, Michigan which received a CRP award of $560,000 and a MBT credit valued at $384,000 in 2014 for the rehabilitation of a three story structure in downtown Owosso.

Appendix B addresses the programmatic requirements and Appendix C includes a project map and renderings.

Recommendation
MEDC staff recommends approval of the following:
  a) Local and school tax capture for the Act 381 eligible activities totaling $1,648,060. Utilizing the current state to local capture ratio, the amount of school tax capture for this project is estimated at $1,110,811.
  b) A MCRP Other Economic Assistance – Performance Based Loan Participation in the amount of $1,773,700 for Offsite Lake Drive, L.L.C.
APPENDIX A

FINANCING OPPORTUNITY – MCRP LOAN PARTICIPATION

The project is seeking Michigan Strategic Fund (MSF) participation in coordination with Lake Michigan Credit Union as the senior lender. The Lender, along with the Borrower, has requested the MSF participate in up to $1,773,700 in a $10,308,700 construction to permanent loan facility. The above financing from LMCU includes financing for both the Phase 1 (1st floor) and Phase 2 renovations. The MSF would be pari passu in terms of payments on its share of the loan, but would allow the collateral to apply first to the Lender’s share in an event of liquidation. It is anticipated that disbursements to the project on the loan will be made on a pro-rata basis. Below outlines a summary of the development sources and investment for both Phases and the proposed structure of the loan participation.

APPENDIX B – Programmatic Requirements & Screening Guidelines

Property Eligibility
The project is located within the boundaries of the City of Grand Rapids, which is a Qualified Local Governmental Unit, and has been deemed functionally obsolete as verified by a Michigan Master Assessing Officer (MMAO) Assessor on May 29, 2015.

The property is the subject of a Brownfield Plan, duly approved by the City of Grand Rapids on September 8, 2015.

MCRP Program and its Guidelines
On December 21, 2011, the MSF Board approved the Michigan Community Revitalization Program (MCRP) and on September 22, 2015, the MSF Board approved its restated program guidelines. The primary intended objective of the MCRP is to provide incentives to persons that make eligible investments on eligible property in Michigan. The total eligible investment for this project is estimated to be $7,094,954.

Source of Information
It is the role of the Project Management staff (MEDC Staff) to review for eligibility, completeness, and adherence to MCRP guidelines, the information provided by the applicant and to manage the MSF’s investment. Explanatory and background information is supplied in summary form to provide context for the request and is drawn exclusively from materials submitted by the applicant, and, as applicable, from other relevant third party sources utilized by staff.

As required under the MCRP, the following statutory criteria is being considered by the MSF:

A. **The importance of the project to the community in which it is located:**
   The project is located in the Uptown Corridor Improvement District and will add significant residential density to the traditional neighborhood business district. This project will also reactivate the upper floors of a structure which has been vacant and underutilized for decades. Additional density is expected to further support efforts to build a strong base of local retailers and restauranteurs.

B. **If the project will act as a catalyst for additional revitalization of the community in which it is located:**
   The Kingsley Building Phase One Project has connected the commercial district at Lake Drive and Wealthy Street to the commercial section at Lake Drive and Robinson Road. The addition of the 41 housing units and office spaces will enhance the commercial district's success while providing a healthy place for the residents to live, work and play.

C. **The amount of local community and financial support for the project:**
   The City of Grand Rapids has approved an Obsolete Property Rehabilitation Act tax abatement in the estimated amount of $965,892. The City and the local Corridor Improvement Authority have
also approved participation in the reimbursement of brownfield eligible expenses. The anticipated local capture amount is estimated to be $545,268.

D. The applicant’s financial need for a community revitalization incentive:
A significant portion of the construction costs for development is related to either low to non-income producing uses, which creates a gap in traditional financing available for the project. Offsite Lake Drive has obtained senior financing from Lake Michigan Credit Union in the amount of $8,535,000 (includes financing for Phase 1/1st floor), or just under 66% of the total project cost. The loan is less than traditional loan-to-value advance rates of between 70-80%, but this loan amount is limited by the cash flow generated by the development. It is anticipated that the owners of the project will be contributing over $2,270,000 in equity (approximately 17.5% of total project costs) to the project and deferring “Developer Fees” of 200,000. The remaining gap would be filled by the proposed MCRP Loan Participation in the amount of $1,773,700.

E. The extent of reuse of vacant buildings, reuse of historical buildings, and redevelopment of blighted property:
The project will result in the reuse of an approximately 73,000 square foot, long vacant building that is listed on the National Register of Historic Places.

F. Creation of jobs:
The project is anticipated to create two full time positions with an average hourly rate of $17.50.

G. The level of private sector and other contributions, including, but not limited to, federal funds and federal tax credits:
It is anticipated that the project financing will include $2,270,000 in owner equity and $8,535,000 in senior financing from Lake Michigan Credit Union.

H. Whether the project is financially and economically sound:
Following construction completion, it is anticipated that the project will generate sufficient cash flow to operate with a debt service coverage ratio of greater than 1.15 to 1.00. Additionally, the project will supported financial by its ownership team, which is personally guarantying 100% of the debt associated with the project.

I. Whether the project increases the density of the area:
The project will add 41 residential units on an approximately one acre site. This is a significant increase in density over the existing status of the site and the surrounding neighborhood.

J. Whether the project promotes mixed-use development and walkable communities:
Phase One of this project resulted in the reactivation of more than 17,000 square feet of ground floor retail space on two street frontages in a traditional business district. This project will add significant residential density to further support the existing retail and the vitality of the surrounding business district. The project also includes construction of a two story parking deck on an existing surface parking lot. This construction will add to the established street wall along two street frontages and will fill a significant gap in the urban fabric of the neighborhood.
K. **Whether the project converts abandoned public buildings to private use:**
   The building is not publicly owned.

L. **Whether the project promotes sustainable development:**
   This revitalization project will adopt the 2030 Challenge to ultimately achieve carbon neutrality (net zero) through the reduction of fossil fuel uses. In addition, the property will be pursuing LEED Gold certification including green roof, photovoltaics, and a high performance thermal envelope.

M. **Whether the project involves the rehabilitation of a historic resource:**
   The Kingsley Building is an adaptive re-use of a historic storage facility originally constructed for the Grand Rapids Storage and Van Company. This property is listed on the National Historic Register of Historic Places due to the fame of its original architect, George S. Kingsley, who designed iconic storage buildings throughout the United States.

N. **Whether the project addresses area-wide redevelopment:**
   This project will increase residential density in the area and further support local services, amenities and may have the effect of encouraging additional growth on vacant urban land in the district.

O. **Whether the project addresses underserved markets of commerce:**
   The project does not address an underserved market of commerce.

P. **The level and extent of environmental contamination:**
   The property is not contaminated and was deemed functionally obsolete. The existing building contains asbestos that requires abatement during demolition activities.

Q. **If the rehabilitation of the historic resource will meet the federal Secretary of the Interior's standards for rehabilitation and guidelines for rehabilitating historic buildings (36 CFR 67):**
   The original intended purpose and use of this building was for the storage of goods and not residential occupancy. As a result, additional window openings will need to be created to accommodate residential units.

R. **Whether the project will compete with or affect existing Michigan businesses within the same industry:**
   The project is not expected to create undue competition with other Michigan businesses.

S. **Any other additional criteria approved by the board that are specific to each individual project and are consistent with the findings and intent of this chapter:**
   There are no additional criteria specific to this project.
Brownfield Act 381 Program Additional Project Information:

A. Reuse of functionally obsolete buildings and/or redevelopment of blighted property:
   This project includes the reuse of a functionally obsolete building in a traditional business district. The structure has been vacant on the upper stories for several decades.

B. Cost gap that exists between the property and a similar greenfield property:
   The Brownfield Tax Increment Financing is needed to remove asbestos, undertake demolition and site preparation activities and to construct a multi-level parking deck and urban stormwater management system needed for this urban site. Given current market rates, the condition of the existing building and the costs associated with construction, these items could not be financially supported by the projected revenue from the project.

C. Whether project will create a new brownfield property in the State:
   No new Brownfields will be created by this project.

Tax Capture Breakdown
There are 47.7179 non-homestead mills available for capture during years 2016 thru 2021 and 46.7379 non-homestead mills available for capture during years 2022 thru 2031, with school millage equaling 24 mills and local millage equaling the difference. Tax increment capture will begin in 2016 and is estimated to continue for 16 years. The school and local tax capture rates below are a blended ratio of capture for the entire 16 year period with the school millage equal to 67.40% and local millage equal to 32.60%. This blended rate is based on OPRA periods for floor 1/Phase 1 of the project during years 2016 thru 2021, a separate OPRA for floors 2-5/Phase 2 during years 2016 thru 2025 and 100% tax rates for the remaining years of the project. The requested tax capture for MSF eligible activities breaks down as follows:

WHEREAS, 2002 PA 727 amended 1996 PA 381, MCL 125.2651 et seq, to empower local brownfield redevelopment authorities to request the MEGA Board to approve a brownfield project work plan and, thereby, capture taxes levied for school operating purposes for the project;

WHEREAS, Executive Order 2012-9 transferred all the authority, powers, duties, functions, responsibilities, records, personnel, property, unexpended balances of appropriations, allocations or other funds of the MEGA to the MSF;

WHEREAS, captured school operating tax revenues may be used under 1996 PA 381 as amended, for infrastructure improvements that directly benefit eligible property, for lead or asbestos abatement, and for structure demolition and site preparation that are not response activities under the Natural Resources and Environmental Protection Act, 1994 PA 451;

WHEREAS, the City of Grand Rapids Brownfield Redevelopment Authority (the “Authority”) has submitted a work plan for property located at 1415 Lake Drive SE within the City of Grand Rapids, known as the Kingsley Building Project (the “Project”);

WHEREAS, the City of Grand Rapids is a “qualified local governmental unit” and is eligible to provide for a) demolition; b) lead and asbestos abatement; c) infrastructure improvements; d) site preparation; e) brownfield work plan preparation and f) interest as provided under 2007 PA 204 and;

WHEREAS, the Authority is requesting MSF approval to capture additional taxes levied for school operating purposes to provide for the reimbursement of the cost of eligible activities on an eligible property; and

WHEREAS, the Michigan Economic Development Corporation (“MEDC”) provides administrative services to the MSF, and has reviewed the application and recommends approval of the Brownfield Work Plan by the MSF Board.

NOW, THEREFORE, BE IT RESOLVED, that the MSF Board authorizes the Authority to capture taxes levied for school operating purposes in substantially the same proportion as the 67.40% to 32.60% blended ratio currently existing between school and local taxes for non-homestead properties with separate Obsolete Property Rehabilitation Act tax abatements on floor one of the building and floors two thru five of the building, to reimburse the cost of site preparation, demolition, asbestos abatement and infrastructure improvements as presented in the revised Work Plan dated December 2, 2015. Any change in millage that increases the capture percentage of school operating taxes by more than 5 percentage points must be approved by the MSF Board. The authorization is based on the Authority capturing all available local operating mills for the term of the capture period. The authorization for the
capture of taxes levied for school operating purposes is based on a maximum of $1,638,060 for the principal activity costs of non-environmental activities and a contingency, and a maximum of $10,000 for Brownfield/Work Plan preparation, and with the capture of taxes levied for school operating purposes being limited to a maximum of $1,110,811.

BE IT FURTHER RESOLVED, that the MSF Board authorizes the MSF Fund Manager, to provide written notification to the Authority, in the form of a letter which incorporates the terms set forth in this Resolution and consistent with the limitations of the Act, and that this approval is further conditioned upon the Authority, or the City, as appropriate, maintaining adequate records regarding: a) all taxes captured for the project; and b) receipts or other appropriate documentation of the cost of eligible activities. MEMORANDUM

Date: December 15, 2015
To: MSF Board
From: David Lorenz, Vice President Travel Michigan
Subject: Pure Michigan 400 2016 Sponsorship

BACKGROUND
Pure Michigan has partnered with Michigan International Speedway to sponsor the Pure Michigan 400 since 2011, with a focus on attracting new visitors to Michigan and showcasing Michigan’s leisure travel assets from car culture and outdoor recreation to destinations like MIS.

Each year nearly 385,000 people visit MIS, generating an economic impact of more than $414 million. Nearly 60 percent of the guests on race weekends come from outside Michigan. The race sponsorship has been an effective way to bring the Pure Michigan message to an additional 75 million NASCAR fans nationwide, with further brand exposure resulting from working with nationally recognized grand marshals, including Desmond Howard, Kid Rock, Carter Oosterhouse and Olympic gold medalists Charlie White and Meryl Davis.

Michigan International Speedway in Brooklyn, Michigan, a town of about 1,200, is one of only 23 facilities in the world to hold such an event. The racetrack seats more than 72,000 people in its grandstands, with tens of thousands of others in the infield, suites and campgrounds.

SPONSORSHIP BACKGROUND
In October 2014, MSF and MIS entered into a sponsorship agreement for the August 16, 2015 Sprint Cup race at MIS, with the option to extend the contract for two additional one-year periods.

As the title sponsor of the August Sprint Cup race, MEDC/Pure Michigan is entitled to benefits that include, but are not limited to:

- On site signage including one (1) highway billboard, five (5) grandstand billboards, six (6) trackside billboards and three (3) backstretch billboards.
- Pit road wall signage.
- Title event turf logo.
- Title event logo on media backdrops, pre-race stage backdrop, starter stand wrap and victory lane backdrop.
- One (1) full-page color advertisement in the Official Souvenir Event program; one (1) full page advertisement in the Guest Guide; and one (1) full-page advertisement in the Inside Track Newsletter.
- Title event logo on tickets, credentials and passes.
- Use of Pit Road Suite throughout both June and August race weekends, with opportunities to host.
- VIP experiences including pace car rides, garage tours, attendance and introductions at drivers meeting, and victory lane photo op.

In 2015, the total rights fee paid to MIS as title sponsor was $675,000 with total broadcast and PR exposure from the race, and efforts leading up to the race, valued at $23,003,736 for an estimated Return on Investment of $34.08 for the sponsorship.

The 2016 race will be held to on Sunday, August 28.

**RECOMMENDATION**
The MEDC recommends the MSF approve $700,000 for Fiscal Year 2016 and $725,000 for Fiscal Year 2017 in order to execute the two one-year extensions of the title sponsorship agreement for the Pure Michigan 400.
