

MICHIGAN STRATEGIC FUND

DATE:

December 27, 2018

TO:

Members of the Michigan Legislature

FROM:

Jeff Mason, President

Michigan Strategic Fund

C. Heidi Grether, Director

Michigan Department of Environmental Quality

SUBJECT:

Brownfield Redevelopment Financing Act – CY 2017 Legislative Report

The Brownfield Redevelopment Financing Act, 1996 PA 381, as amended, requires the Michigan Department of Environmental Quality (MDEQ) and the Michigan Strategic Fund (MSF) to submit a report annually to each member of the Legislature as provided in Section 16(4). Pursuant to this requirement, attached is the Calendar Year 2017 Legislative Report. Out of 295 Brownfield Redevelopment Authorities, 281 have completed the reporting requirements, 12 have either disbanded or dissolved by resolution, 2 did not complete the report requirements for a compliance rate of 99 percent.

Please contact the MEDC Office of Government Relations at 517.335.1847 if you have any questions.

Brownfield Redevelopment Financing Act Report Calendar Year 2017

The Brownfield Redevelopment Financing Act, 1996 PA 381, (Act 381), requires the Michigan Department of Environmental Quality (MDEQ) and the Michigan Strategic Fund (MSF) to submit an annual report to each member of the Legislature as provided in Section 16(4). There are a total of 295 Brownfield Redevelopment Authorities (BRAs) registered with the Office of the Great Seal in the State of Michigan; 12 have either disbanded or dissolved by resolution, 281 have completed the reporting requirement, and 2 BRAs did not complete the reporting requirement, for a compliance rate of 99%. The two BRAs that did not complete the reporting requirement will result in the MSF and MDEQ withholding financial support from the jurisdiction's future projects until reporting is completed.

Act 381 authorizes municipalities to create a BRA. These BRAs develop and approve Brownfield Plans, which promote revitalization of brownfield properties through the use of tax increment financing. A Brownfield Plan will identify properties on which specific eligible activities will be conducted, that will result in the increase and capture of ad valorem and specific taxes. In most cases, properties are identified by the municipality in conjunction with a developer or company interested in redeveloping that property. The developer or company who rehabilitates the property invests funds into the project to mitigate brownfield conditions and is then repaid for their brownfield related investment via capture of the increased taxable value. The jurisdiction continues to receive the predevelopment taxes (determined by the base value when the Brownfield Plan is initially approved) until the Brownfield eligible costs are paid off.

A property eligible for brownfield development is either a "facility" [as defined in Part 201, Environmental Remediation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, (NREPA)], "blighted," "functionally obsolete," a "historic" property, or is "adjacent or contiguous" property, as defined in Act 381.

Approval from the MDEQ is required for all Act 381 work plans for projects where taxes levied for state school operating purposes will be captured to pay for environmental eligible activities, such as due care and response activities under the NREPA.

Approval from the MSF is required for all Act 381 work plans for projects where taxes levied for state school operating purposes will be captured to pay for non-environmental eligible activities, such as demolition, lead, asbestos or mold abatement, site preparation, and infrastructure improvements that directly benefit the eligible property.

Local jurisdictions may also approve Brownfield Plans that only utilize local tax capture to reimburse eligible activity costs and forgo state tax capture for reimbursement (local-only plans).

To enable legislators to easily identify projects within their respective districts, the data is being presented by county with the address of each brownfield project detailed in the report. The information is based on approved local-only plans and Act 381 work plans in which tax increment revenues (TIR) were collected in the 2017 tax year.

A total of 156 BRAs reported that they did not collect or reimburse any TIR for the 2017 tax year. A total of 125 BRAs had either local-only plans or Act 381 work plans actively collecting and/or reimbursing TIR across the state. The total amount of TIR collected during 2017 was \$48,074,891* resulting from a cumulative increase in taxable value of \$1,043,757,701, at these designated project sites.

Of the actively collecting Act 381 work plans, 54 plans reported only environmental expenditures (for eligible activities approved by the MDEQ), 116 plans reported only non-environmental expenditures (for eligible activities approved by the MSF), and 79 plans reported both environmental and non-environmental eligible activity expenditures. Of those actively collecting, there were 136 local-only plans with expenditures.

*This number reflects a difference of (+)\$119,313 from the spreadsheet column "amount of local TIR Received", due to a late data entry by one BRA.

The data is self-reported by each BRA. A sample of up to 15% of the Act 381 work plans reporting tax capture has been validated by MDEQ staff.

The State Brownfield Redevelopment Fund (SBRF) was created in accordance with Section 8a of Act 381 and includes capture of 50% of taxes levied for state education tax purposes from each eligible property included in a Brownfield Plan after January 1, 2013. The 2017 reporting year is the third year in which the fund has received payments. Up to 15% of the amounts deposited annually into the SBRF may be used to pay administrative costs to implement the Act. Through November of 2018, these funds were used to reimburse the MEDC for the cost associated with the Act 381 reporting portal, which is now fully reimbursed. The remaining 85% of the taxes allocated for the SBRF were distributed to the MSF and MDEQ per Section 8a(3)(b-c) of Act 381. State Brownfield Funds collected to date are \$305,010. A program is being developed for use of the funds for a future grant and loan program.

In 2017, Act 381 legislation was amended to include Transformational Brownfield Plans (TBP). In addition to property tax capture, TBPs allow construction period sales and use tax exemptions and capture of construction period income tax revenues, as well as post-construction income and withholding tax capture. One TBP project was approved in 2018 and no tax increment was captured for the 2017 reporting year. Reporting will begin on TBP projects in the 2018 calendar year, which will be reported in 2019, as current year reporting is submitted to the MEDC in the calendar year following when data is available.

In 2017, Act 381 Section 16 (3)(g) reporting requirements were amended and the references identified in the statute were incorrect. All required amounts are included in aggregate numbers in the annual report. MEDC and MDEQ have requested that the identified reporting requirements be changed by statute to reflect the intended request.
