

MICHIGAN STRATEGIC FUND

MEMORANDUM

DATE: October 7, 2020

TO: Members of the Michigan Legislature

FROM: Mark Burton, President
Michigan Strategic Fund

SUBJECT: FY 2020 Michigan Agricultural Safety Grant Program Report

Public Act 123 of 2020 allocated \$15 million of federal CARES Act funding to the Michigan Strategic Fund (MSF) to create and execute the Michigan Agricultural Safety Grant Program. The program provides \$10 million in grants to agricultural processors and \$5 million in grants to farms statewide to fund COVID-19 mitigation costs. East Lansing-based GreenStone Farm Credit Services, one of America's largest rural lenders, was selected to process applications.

The Act requires the MSF to submit a report to Appropriations Committees, fiscal agencies, and the State Budget Office by October 15, 2020 summarizing the expenditures by grant recipients. Pursuant to this requirement, attached is the FY 2020 report.

Because of the legislative interest in this program and to provide full transparency, this report is being shared with all members of the Michigan Legislature.

If you have any questions regarding the information in this report, please contact our Office of Government Relations at 517.335.1847.

Michigan Agricultural Safety Grant Program

FY 2020 Report

In response to the economic impact of COVID-19, the State of Michigan allocated \$15 million of CARES Act funding to implement the [Michigan Agricultural Safety Grant Program](#) to support the needs of Michigan farms and agricultural processors impacted by COVID-19.

In total, 336 grants were awarded the \$15,000,000 in funding, out of a total of 391 applications received. There were 159 awards to agricultural processors and 177 awards to farms. Approximately 26 percent of the grants have been awarded to farms or agricultural processors in geographically disadvantaged areas.

The Michigan Agricultural Safety Grant Program provided \$10 million in funding to Michigan agricultural processors and \$5 million to farms with 10 or more employees. Grants of up to \$200,000 were available to eligible agricultural processors and up to \$50,000 to eligible farms that have been negatively impacted by COVID-19 and needed support to implement COVID-19 monitoring and mitigation strategies to protect agricultural employees and the state's overall food production industry.

Agricultural processors and farms with 10 or more employees, located in Michigan were eligible to apply. Agricultural processors and farms also were required to provide the following:

- 2019 IRS Form 1040, Schedule F (2018 Schedule F may be submitted if 2019 is unavailable) or state license, tax, or other relevant information demonstrating qualification as a farm or processor
- Company payroll documentation supporting the number of employees for which grant funds are being requested
- Certification that funds will only be used for eligible expenses
- Proof of good standing with the State of Michigan, as applicable (Certificate of Good Standing)
- Verification that the business is current on State, Local and Real Estate Taxes, or is otherwise contesting them in good faith
- Certification of compliance with, and agreement to all other required MSF terms and conditions
- Agreement to register for payment by EFT at the State of Michigan State Integrated Governmental Management Applications (SIGMA) Vendor Self-Service (VSS) website and agrees to provide its registration number in the application

The MSF Board approved the distribution of grant funding on July 7, 2020, with the application for the program going live July 15, 2020. Applications were collected and reviewed for eligibility by East Lansing-based GreenStone Farm Credit Services, one of America's largest rural lenders, including 31 branches in Michigan. GreenStone hosted the application portal for both grants, completed an initial screening of all applications and supporting documentation, and recommended eligible applications to the Michigan Economic Development Corporation for final approval and disbursement of the grants awarded. Grants were awarded to eligible applicants on a first-come, first served basis.
