

REQUEST FOR PROPOSALS
MICHIGAN ECONOMIC DEVELOPMENT CORPORATION
CIVIL ENGINEERING FIRM FOR SITE ACTIVITIES
RFP-CASE-360780

REMINDER

Please check your proposal to make sure you have included all of the specifications in the Request for Proposals. In addition, please submit an electronic version of each of the following:

- Technical Proposal (Section II-A);
- Price Proposal (Section II-B);
- Signed Independent Price Determination Certificate (Attachment A); and
- Conflicts of Interest Disclosure (if applicable) (Section II-G).

ENGINEERING FIRMS ARE RESPONSIBLE FOR ASSURING THAT THE FOLLOWING IDENTIFYING INFORMATION APPEARS IN THE SUBJECT LINE OF YOUR EMAIL: “RFP-CASE-360780 Technical Proposal” and “RFP-CASE-360780 Pricing Proposal” with Company Name, and “message 1 of 3” as appropriate if the bid consists of multiple emails.

The Michigan Economic Development Corporation (the “MEDC”) will not respond to telephone inquiries, or visitation by Engineering firms or their representatives. Engineering firm’s sole point of contact concerning the RFP is below and any communication outside of this process may result in disqualification.

Contract Services
Michigan Economic Development Corporation
300 North Washington Square, 3rd Floor
Lansing, Michigan 48913
contractsandgrants@michigan.org

IMPORTANT DUE DATES

- **October 20, 2022, at 3:00 p.m.:** Questions from potential Engineering firms are due via email to contractsandgrants@michigan.org. Please note: The MEDC will not respond to questions that are not received by the above date and time. In addition, questions that are phoned, faxed or sent through regular mail will not be accepted.
- **October 27, 2022, by close of business:** Responses to all qualifying questions will be posted on the MEDC’s website, <https://www.michiganbusiness.org/360780>.
- **November 3, 2022, at 3:00 p.m.:** Electronic versions sent separately of each of your Technical Proposal and Price Proposal due to the MEDC via email to contractsandgrants@michigan.org. **Proposals will not be accepted via U.S. Mail or any other delivery method.**

REQUEST FOR PROPOSAL
CIVIL ENGINEERING FIRM FOR SITE ACTIVITIES
RFP-CASE-360780

This Request for Proposals (the "RFP") is issued by the Michigan Economic Development Corporation (the "MEDC"), Contract Services unit (the "CS"). CS is the sole point of contact with regard to all bidding and contractual matters relating to the services described in this RFP. CS is the only office authorized to change, modify, amend, alter, clarify, etc. the specifications, terms and conditions of this RFP and any contract(s) awarded as a result of this RFP (the "Contract"). CS will remain the SOLE POINT OF CONTACT throughout the bidding process. ***The MEDC will not respond to telephone inquiries, or visitation by Engineering firms or their representatives. Engineering firm's sole point of contact concerning the RFP is below and any communication outside of this process may result in disqualification.***

Contract Services
Michigan Economic Development Corporation
300 North Washington Square
Lansing, Michigan 48913
contractsandgrants@michigan.org

SECTION I STATEMENT OF WORK

A) PURPOSE

The MEDC is seeking a civil engineering firm to provide engineering expertise toward the MEDC's intent to acquire, assemble and qualify several sites as project ready for the purposes of business attraction and investment throughout the State of Michigan.

B) BACKGROUND STATEMENT AND OBJECTIVES

In December 2021, the Michigan legislature passed the Strategic Outreach and Attraction Reserve ("SOAR") legislation, including funding for a Strategic Site Readiness Program ("SSRP"). The State of Michigan has long been deficient in sites for business attraction, resulting in the loss of business expansion and new business opportunities. The SSRP allows for a broad range of site acquisition, due diligence, infrastructure and utility improvements and other site development activities necessary to control and prepare for site readiness.

The MEDC is currently experiencing an extraordinary level of RFP site requests due to the overall level of real estate activity, the increasing awareness that Michigan does have sites to offer, and the passage of the SOAR legislation. The RFP's typically are received with a very short turn-around time rendering most responses an urgent matter. If selected for further consideration after RFP response, typically there is a company visit with presentation and site tour.

C) QUALIFICATIONS

Qualified engineering firms should have a quality track record of completed similar work, extensive prior experience in real estate development plans, site infrastructure needs, site redevelopment, project management, site due diligence reports, and established record of work with economic development entities. A qualified engineering firm will utilize an appropriate team/mix of project associates, analysts, and managers to complete work efficiently and effectively.

D) DUTIES AND DELIVERABLES

Through the review of various studies completed by the MEDC, discussions with site selectors, review of historical and projected project pipeline, and input from stakeholders, the following targets have been established:

1. Creation of three Strategic Mega-Sites (over 1,000 acres) by December 31, 2023, with two mega-sites by December 31, 2022.
2. Support the creation of 15 Strategic Sites by 12/31/2023.
 - 1) Minimum of one site in each of the 10 Prosperity Regions; site map located here: <https://www.michigan.gov/-/media/Project/Websites/mdhhs/Folder3/Folder39/Folder2/Folder139/Folder1/Fol>

[der239/Prosperity_Map1_430346_7.pdf?rev=4b907ee644814b6397163752b0c3807e](#)

- 2) Additional sites in regions based on workforce numbers, utilities and other site selection factors

The selected Engineering firm will be required to perform the following tasks in connection with the site activities:

- coordinate site due diligence activities
- complete site due diligence activities such as but not limited to wetland assessments, phase 1 environmental studies, storm water management, waste water collection, gas and electric supply etc.
- prepare budget projections for various stages of site development activities, make recommendations for potential developments on sites and locations based on site selection factors
- establish tasks and timelines for various stages of site development activities
- make recommendations on sites for potential developments that will be deemed strategic for a mega site
- work with utility companies, local units of government, Michigan Department of Transportation and others as may be needed to advance site readiness
- provide general engineering expertise and other tasks

These duties may be modified or expanded based on the specific site needs and characteristics.

SECTION II PROPOSAL FORMAT

To be considered, each Engineering firm must submit a COMPLETE proposal in response to this RFP using the format specified. Engineering firm's proposal must be submitted in the format outlined below. There should be no attachments, enclosures, or exhibits other than those required in the RFP or considered by the Engineering firm to be essential to a complete understanding of the proposal. Each section of the proposal should be clearly identified with appropriate headings:

A) **TECHNICAL PROPOSAL**

1. **Business Organization and History** – State the full name, address, and phone number of your organization and, if applicable, the branch office or other subordinate element that will perform, or assist in performing, the work hereunder. Indicate whether it operates as an individual, partnership, or corporation; if as a corporation, include the state in which it is incorporated. If applicable, the proposal must state whether the organization is licensed to operate in the State of Michigan. Organizations must be in good standing with the State of Michigan.
2. **Statement of the Problem** – State in succinct terms your understanding of the objectives and deliverables presented by this RFP.
3. **Narrative** – Include a narrative summary description of the proposed effort and of the services(s)/products(s) that will be delivered.
4. **Technical Work Plans** – Provide a detailed research outline and timelines for successfully completing the Deliverables identified in Section I of this RFP.
5. **Prior Experience** – Describe the prior experience of your organization which you consider relevant to the successful accomplishment of the project defined in this RFP. Include sufficient detail to demonstrate the relevance of such experience. Proposals submitted should include, in this Section, descriptions of qualifying experience to include project descriptions, costs, and starting and completion dates of projects successfully completed; also include the name, address, and phone number of the responsible official of the client organization who may be contacted. Please include samples of prior relevant work, including the contact information of the client and comprehensive summary of the work performed. If a complete work sample is not provided, then a summary of the work completed, and the client's use of that work should be detailed in a written statement.

The MEDC may evaluate the Engineering firm's prior performance with the MEDC, and prior performance information may be a factor in the award decision.

6. Project Staffing – The Engineering firm must be able to staff a project team which possesses talent and expertise in the field of the requirements of this RFP. Identify a Project Manager and staff assigned by name and title. Include biographies, experience and any other appropriate information regarding the work team’s qualification for this initiative. This information should be provided for the individuals who will actually be working on the project. Indicate staff turnover rates. Show where the project team will be physically located during the time they are engaged in the work. Indicate which of these individuals you consider key to the successful completion of the work. Indicate the amount of dedicated management time for the Engineering firm’s Project Manager and other key individuals. Do not include any financials for the contemplated work within the Technical Proposal. Resumes of qualifications should be supplied for proposed project personnel.

Please Note: The MEDC further reserves the right to interview the key personnel assigned by the Contractor to this project and to recommend reassignment of personnel deemed unsatisfactory.

7. Subcontractors – List here all subcontractors that will be engaged to accomplish the project described in this RFP; include firm name and address, contact person and complete description of work to be subcontracted. Include descriptive information concerning subcontractor's organization and abilities. Also, the information provided in response to A-5, above, should include detailed information about each potential subcontractor.
8. Engineering firm’s Authorized Expediter – Include the name and telephone number of person(s) in your organization authorized to expedite any proposed contract with the MEDC.
9. Additional Information and Comments – Include any other information that is believed to be pertinent, but not specifically asked for elsewhere.

B) PRICE PROPOSAL

Provide the cost/rate/price information for all firms/persons named in your Price Proposal to demonstrate the reasonableness of your Price Proposal. The Price Proposal should include a table showing hourly rates that include wages, benefits and overhead by analyst level and estimate of total project hours, broken out by project contributor. Attach a schedule of all expenses covering each of the services and activities identified in your proposal.

The MEDC is exempt from federal excise tax, and state and local sales taxes. The Price Proposal should not include taxes.

THE PRICING PROPOSAL MUST BE IDENTIFIED AND SENT SEPARATELY FROM THE TECHNICAL PORTION OF YOUR PROPOSAL ACCORDING TO THE INSTRUCTIONS OF THIS RFP. Separately sealed pricing proposals will remain sealed until the JEC has completed evaluation of the technical proposals.

Engineering firms please note: Rates quoted in response to this RFP are firm for the duration of the Contract; no price increase will be permitted.

C) PROPOSAL SUBMITTAL

Submit separately marked electronic versions of each of your Technical Proposal and Price Proposal to the MEDC via email to contractsandgrants@michigan.org not later than **3:00 p.m. on November 3, 2022**. The MEDC has no obligation to consider any proposal that is not timely received. **Proposals will not be accepted via U.S. Mail or any other delivery method.**

ENGINEERING FIRMS ARE RESPONSIBLE FOR ASSURING THAT THE FOLLOWING IDENTIFYING INFORMATION APPEARS IN THE SUBJECT LINE OF YOUR EMAIL: "*RFP-CASE-360780 Technical Proposal*" and "*RFP-CASE-360780 Price Proposal*" with *Company Name*, and "*message 1 of 3*" as appropriate if the bid consists of multiple emails.

**SECTION III
RFP PROCESS AND TERMS AND CONDITIONS**

A) PRE-BID MEETING/QUESTIONS

A pre-bid meeting will not be held. Questions from Engineering firms concerning the specifications in this RFP must be received via e-mail no later than **3:00 pm on October 20, 2022**. Questions must be submitted to:

Contract Services
contractsandgrants@michigan.org

B) PROPOSALS

To be considered, Engineering firms must submit a complete response to this RFP, using the format provided in Section II of this RFP, by **3:00 p.m. on November 3, 2022**. No other distribution of proposals is to be made by the Engineering firm.

The Technical Proposal must be **signed physically or electronically** by an official of the Engineering firm authorized to bind the Engineering firm to its provisions. The proposal must include a statement as to the period during which it remains valid; this period must be at least ninety (90) days from November 3, 2022. The rates quoted in the Price Proposal must remain firm for the period indicated in Section II.

C) ECONOMY OF PREPARATION

Each proposal should be prepared simply and economically, providing a straightforward, concise description of the Engineering firm's ability to meet the requirements of the RFP. Emphasis should be on completeness and clarity of content.

D) SELECTION CRITERIA

Responses to this RFP will be evaluated based upon a three-step selection process. The proposal must address the requirements described in Section II of this RFP.

The first step is an evaluation of which proposals satisfactorily meet the requirements of this RFP as stated in Section II.

1) Step I – Initial evaluation for compliance

a) *Proposal Content* – Contract Services will screen the proposals for technical compliance to include but not be limited to:

- Timely submission of the proposal.
- Technical Proposal and Price Proposal clearly identified and sent separately.
- Proposal signed physically or electronically by an official of the Engineering firm authorized to bind the Engineering firm to its provisions.
- Proposals satisfy the form and content requirements of this RFP.

2) Step II – Criteria for Satisfactory Technical Proposals

- a.) During the second step of the selection process, proposals will be considered by a Joint Evaluation Committee (the “JEC”) comprised of individuals selected by the MEDC. Only those proposals that satisfy the requirements described in this RFP, as determined in the sole discretion of the JEC, will be considered for evaluation in Step II. The JEC reserves the right to request additional information from any Engineering firm.
- b.) *Competence, Experience and Staffing Capacity* – The proposal should indicate the ability of the Engineering firm to meet the requirements of this RFP, especially the time constraints, quality, and recent projects similar to that described in this RFP. The proposal should indicate the competence of the personnel whom the Engineering firm intends to assign to the project, including education and experience, with particular reference to experience on projects similar to that described in this RFP and qualifications of Engineering firm’s Project Manager and the Project Manager’s dedicated management time, as well as that of other key personnel working on this project.

		Weight
1.	Solution Narrative	20
2.	Response to Requirements	20
3.	Proposed Scope of Work and detail of Methodology	20
4.	Experience	15
5.	Project-Time Schedule	15
6.	Adequacy/qualifications of proposed staffing	10
TOTAL		100

- c.) During the JEC’s review, Engineering firms may be required to make oral presentations of their proposals to the JEC. These presentations provide an opportunity for the Engineering firms to clarify the proposals. The MEDC will schedule these presentations, if required by the JEC.
- d.) Only those proposals receiving a score of **80 points or more** in the technical proposal evaluation will have their pricing evaluated to be considered for award.

3) Step III – Criteria for Satisfactory Price Proposal

- a.) Based on what is in the best interest of the MEDC, the MEDC will award the Contract considering value, quality, and the ability to meet the objectives of this RFP, of proposals that were approved as a result of this two-step evaluation process.
- b.) The MEDC reserves the right to consider economic impact on the State of Michigan when evaluating proposal pricing. This includes, but is not limited to:

job creation, job retention, tax revenue implications, and other economic considerations.

- c.) The award recommendation will be made to the responsive and responsible Engineering firm who offers the best value to the MEDC and the State of Michigan. Best value will be determined by the Engineering firm meeting the minimum point threshold and offering the *best proposal that meets the objectives of the RFP*.
- d.) The MEDC reserves the right to award to another “best value” contractor in case the original Awardee does not accept the award.

E) ENGINEERING FIRMS COSTS

The MEDC is not liable for any costs incurred by any Engineering firm prior to signing of the Contract by all parties.

F) TAXES

The MEDC may refuse to award a contract to any Engineering firm who has failed to pay any applicable taxes or if the Engineering firm has an outstanding debt to the State of Michigan or the MEDC.

Except as otherwise disclosed in an exhibit to the Proposal, Engineering firm certifies that all applicable taxes are paid as of the date the Engineering firm’s Proposal was submitted to the MEDC and the Engineering firm owes no outstanding debt to the State of Michigan or the MEDC.

G) CONFLICT OF INTEREST

The Engineering firm must disclose, in an exhibit to the proposal, any possible conflicts of interest that may result from the award of the Contract or the services provided under the Contract.

Except as otherwise disclosed in the proposal, the Engineering firm affirms that to the best of its knowledge there exists no actual or potential conflict between the Engineering firm, the Engineering firm’s project manager(s) or its family’s business or financial interests (“Interests”) and the services provided under the Contract. In the event of any change in either Interests or the services provided under the Contract, the Engineering firm will inform the MEDC regarding possible conflicts of interest which may arise as a result of such change and agrees that all conflicts shall be resolved to the MEDC’s satisfaction or the Engineering firm may be disqualified from consideration under this RFP. As used in this Section, “conflict of interest” shall include, but not be limited to, the following:

- 1) Giving or offering a gratuity, kickback, money, gift, or anything of value to a MEDC official, officer, or employee with the intent of receiving a contract from the MEDC or favorable treatment under a contract;
- 2) Having or acquiring at any point during the RFP process or during the term of the Contract, any contractual, financial, business or other interest, direct or indirect, that would conflict in any manner or degree with Engineering firm’s performance of its duties

and responsibilities to the MEDC under the Contract or otherwise create the appearance of impropriety with respect to the award or performance of the Contract; or

- 3) Currently in possession of or accepting during the RFP process or the term of the Contract anything of value based on an understanding that the actions of the Engineering firm or its affiliates or Interests on behalf of the MEDC will be influenced.

H) BREACH OF CONTRACT

Except as otherwise disclosed in an exhibit to Engineering firm's proposal, Engineering firm is not in material default or breach of any contract or agreement that it may have with the State of Michigan or any of its departments, commissions, boards or agencies, or any other public body in the State of Michigan. Further, Engineering firm represents and warrants that it has not been a party to any contract with the State of Michigan or any public body that was terminated within the previous five (5) years because the Engineering firm failed to perform or otherwise breached an obligation of such contract.

I) DISCLOSURE OF LITIGATION

Except as otherwise disclosed in an exhibit to Engineering firm's proposal, there is no criminal litigation, investigations or proceedings involving the Engineering firm (and each subcontractor, if subcontractors will be used to provide the goods/services requested under this RFP) or any of the Engineering firm's officers or directors or any litigation or proceedings under the Sarbanes-Oxley Act. In addition, Engineering firms must disclose in the exhibit requested under this Section of the RFP any civil litigation, arbitration or proceeding to which the Engineering firm (or, to the extent Engineering firm is aware, any subcontractor) is a party and which involves: (1) disputes that might reasonably be expected to adversely affect the viability or financial stability of the Engineering firm (or subcontractor); or (2) a claim or written allegation of fraud or breach of contract against Engineering firm (or, to the extent Engineering firm is aware, subcontractor), by a governmental or public entity arising out of their business dealings with governmental or public entities. Details of any settlements which Engineering firm is prevented from disclosing under the terms of the settlement may be annotated as such.

J) FALSE INFORMATION

If the MEDC determines that a Engineering firm purposefully or willfully submitted false information in response to this RFP, the Engineering firm will not be considered for an award and any resulting Contract that may have been executed may be terminated.

K) DISCLOSURE

All Engineering firms should be aware that proposals submitted to the MEDC in response to this RFP may be subject to disclosure under the provisions of Public Act 442 of 1976, as amended, known as the Freedom of Information Act ("FOIA"). Accordingly, confidential information should be excluded from Engineering firms' proposals. Engineering firms, however, are encouraged to provide sufficient information to enable the MEDC to determine the Engineering firm's qualifications and to understand or identify areas where confidential information exists and could be provided. The FOIA also provides for the complete disclosure of the Contract and any attachments or exhibits thereto.

L) PRICES HELD FIRM

LENGTH OF TIME PRICES ARE TO BE HELD FIRM: All rates quoted in Engineering firm's response to this RFP will be firm for the duration of the Contract. No price changes will be permitted. IN THE EVENT THAT PROPOSED CHANGES ARE NOT ACCEPTABLE TO THE MEDC, THE CONTRACT SHALL BE TERMINATED AND THE MODIFIED CONTRACT SHALL BE SUBJECT TO COMPETITIVE BIDDING.

M) BEST AND FINAL OFFER

At any time during the evaluation process, the JEC may request a Best and Final Offer ("BAFO") from any Engineering firm. This will be the final opportunity for an Engineering firm to provide a revised proposal. The scope of the changes allowed in the BAFO will be published as part of the issuance of the BAFO request.

Engineering firms are cautioned to propose the best possible offer at the outset of the process, as there is no guarantee that any Engineering firm will be allowed an opportunity to engage in Pricing Negotiations or requested to submit a Best and Final Offer.

N) CLARIFICATION/CHANGES IN THE RFP

Changes made to the RFP as the result of responses made to qualifying questions or concerns will be posted on <https://www.michiganbusiness.org/360780>. Applicants are encouraged to regularly check this site for changes or other information related to the RFP.

O) ELECTRONIC BID RECEIPT

ELECTRONIC VERSIONS OF EACH OF YOUR TECHNICAL AND PRICE PROPOSALS SENT SEPARATELY MUST BE RECEIVED AND TIME-STAMPED BY THE MEDC TO contractsandgrants@michigan.org, ON OR BEFORE **3:00 p.m. on November 3, 2022**. Engineering firms are responsible for timely submission of their proposal. THE MEDC HAS NO OBLIGATION TO CONSIDER ANY PROPOSAL THAT IS NOT RECEIVED BY THE APPOINTED TIME.

P) RESERVATION OF MEDC DISCRETION

Notwithstanding any other statement in this RFP, the MEDC reserves the right to:

- 1) reject any and all proposals;
- 2) waive any errors or irregularities in the bidding process or in any proposal;
- 3) rebid the project;
- 4) negotiate with any Engineering firm for a reduced price, or for an increased price to include any alternates that the Engineering firm may propose;
- 5) reduce the scope of the project, and rebid or negotiate with any Engineering firm regarding the revised project; or
- 6) defer or abandon the project.

The MEDC's decision is final and not subject to appeal. Any attempt by an applicant,

collaborating entity, or other party of interest to the project to influence the awards process, to appeal, and/or take any action, including, but not limited to, legal action, regarding the proposal or awards process in general may result in the applicant's disqualification and elimination from the award process.

Q) JURISDICTION

In the event that there are conflicts concerning this RFP that proceed to court, jurisdiction will be in a Michigan court of law. Nothing in this RFP shall be construed to limit the rights and remedies of the MEDC that are otherwise available.

R) ADDITIONAL CERTIFICATION

Pursuant to Public Act 517 of 2012, an Iran linked business is not eligible to submit a bid on a request for proposal, with a public entity.

Engineering firms must include the following certification in the technical proposal:

“Engineering firm certifies that it is not an Iran-linked business as defined in MCL 129.312.”

Failure to submit this certification will result in disqualification from consideration.

**SECTION IV
CONTRACTUAL TERMS AND CONDITIONS**

A) CONTRACT TERMS AND CONDITIONS

- 1) The Contract – The proposal selected will be subject to the terms and conditions of the professional services contract (the “Contract”) that will be negotiated between the MEDC and the successful Engineering firm.
- 2) Term of Work – It is estimated that the activities in the proposed Contract will cover the period December 1, 2022 through April 30, 2023. The MEDC in its sole discretion, may extend the Term and allocate additional resources, subject to available funding.
- 3) Modification of Service – The MEDC reserves the right to modify the requested services during the course of the Contract. Such modifications must be made in writing and may include the addition or deletion of tasks or any other modifications deemed necessary. Any changes in pricing proposed by the engineering firm resulting from the requested changes are subject to acceptance by the MEDC. Changes may be increases or decreases.

In the event changes are not acceptable to the MEDC, the Contract shall be subject to competitive bidding based upon the new specifications.

- 4) Subcontracting – The MEDC reserves the right to approve any subcontractors for the Contract and to require the engineering firm, upon award of the Contract, to replace subcontractors that the MEDC finds to be unacceptable.
- 5) Award of Contract – The MEDC reserves the right to award all or any part of this RFP and, based on what is in the best interest of the MEDC, the MEDC will award the Contract considering price, value and quality of the bids.

B) CONTRACTOR RESPONSIBILITIES

The selected Engineering firm will be required to assume responsibility for all contractual activities offered in this RFP whether or not the Engineering firm performs them. Further, the MEDC will consider the selected Engineering firm to be the sole point of contact with regard to contractual matters, including payment of any and all charges resulting from the Contract.

C) ACCEPTANCE OF PROPOSAL CONTENT

If awarded a Contract, the contents of this RFP will become contractual obligations. The following constitute the complete and exclusive statement of the agreement between the parties as it relates to this transaction:

- 1) This RFP (including subsequent written clarification provided in response to questions raised by email) and any Addenda thereto; and
- 2) Final executed Contract.

In the event of any discrepancies between the above documents, the final executed Contract shall control. Failure of the successful Engineering firm to accept these obligations may result in cancellation of the award.

D) PROJECT CONTROL AND REPORTS

1) Project Control

- a) The selected Engineering firm (the “Contractor”) will carry out this project under the direction and control of the Business Support Unit of the MEDC.
- b) The MEDC will appoint a Contract Manager for this project. Although there will be continuous liaison with the Contractor team, the Contract Manager will meet with the Contractor's project manager for the purpose of reviewing progress and providing necessary guidance to the Contractor in solving problems which arise.
- c) The Contractor will submit brief periodic summaries of progress which outline the work accomplished during the reporting period; work to be accomplished during the subsequent reporting period; problems, real or anticipated which should be brought to the attention of the Contract Manager and notification of any significant deviation from previously agreed upon work plans.
- d) Within five (5) working days of the execution of the Contract, the Contractor will submit a work plan to the Contract Manager for final approval. This work plan must be in agreement with Section III-A of this RFP as proposed by the Engineering firm and accepted by the MEDC for contract, and must include the following:
 - (i) The Contractor's project organizational structure.
 - (ii) The Contractor's staffing table with names and titles of personnel assigned to the project. This must be in agreement with staffing of the accepted proposal. Necessary substitutions due to change of employment status and other unforeseen circumstances may only be made with prior approval of the MEDC.
 - (iii) The project breakdown showing sub-projects, activities and tasks, and resources required and allocated to each.
 - (iv) The time-phased plan in the form of a graphic display, showing each event, task, and decision point in your work plan.

ATTACHMENT A

**INDEPENDENT PRICE DETERMINATION AND
PRICES HELD FIRM CERTIFICATION**

INDEPENDENT PRICE DETERMINATION

By submission of a proposal, the Engineering firm certifies, and in the case of a joint proposal, each party thereto certifies as to its own organization, that in connection with this proposal:

1. The prices in the proposal have been arrived at independently, without consultation, communication, or agreement, for the purpose of restricting competition as to any matter relating to such prices with any other Engineering firm or with any competitor;
2. Unless otherwise required by law, the prices which have been quoted in the proposal have not been knowingly disclosed by the Engineering firm and will not knowingly be disclosed by the Engineering firm prior to award directly or indirectly to any other Engineering firm or to any competitor; and
3. No attempt has been made or will be made by the Engineering firm to induce any other person or firm to submit or not submit a proposal for the purpose of restricting competition.

Each person signing the proposal certifies that she/he:

- A) Is the person in the Engineering firm's organization responsible within that organization for the decision as to the prices being offered in the proposal and has not participated (and will not participate) in any action contrary to 1, 2, and 3 above; or
- B) Is not the person in the Engineering firm's organization responsible within that organization for the decision as to the prices being offered in the proposal but has been authorized, in writing, to act as agent for the persons responsible for such decision in certifying that such persons have not participated (and will not participate) in any action contrary to 1, 2, and 3 above.

A proposal will not be considered for award if this Attachment B has been altered so as to delete or modify 1 or 3, above. If 2, above, has been modified or deleted, the proposal will not be considered for award unless the Engineering firm provides, with this Attachment B, a signed statement which sets forth, in detail, the circumstances of the disclosure and the MEDC determines that such disclosure was not made for the purpose of restricting competition.

PRICES HELD FIRM

LENGTH OF TIME PRICES ARE TO BE HELD FIRM: All rates quoted in engineering firm's response to this RFP will be firm for the duration of the Contract. No price changes will be permitted.
