MSF	1029	Michigan's High-Tech Talent Initiative	\$2,000,000	Detroit Regional Chamber Foundation	To enhance economic prosperity through key programming focused on increasing the talent pipeline through exposure and experiential learning; attracting and retaining talent on a regional level; and promoting careers in automotive and mobility related fields.	Wayne County	\$500,000	Rep. Morgan
MSF	1011	Downtown Development	\$150,000	Charter Township of Redford	<p>The purpose of the Redford Township Downtown Development Authority (DDA) is to foster economic growth and the revitalization of the downtown district, particularly the area around Five Mile Road and Beech Daly Road. By leveraging public funding, the DDA aims to provide the resources necessary to plan and implement projects outlined in the DDA Development Plan. This funding serves a public purpose by enabling the DDA to:</p> <p>Enhance Aesthetics and Infrastructure: Focus on improving the visual appeal and functionality of the shopping environment within the DDA District through streetscape enhancements, lighting improvements, pedestrian-friendly walkways, landscaping, and public amenities.</p> <p>Support Local Businesses: Assist merchants by organizing events, offering business workshops, and providing resources to help local businesses thrive in a competitive market.</p> <p>Combat Blight: Undertake initiatives to eliminate blight in the district, which will attract new businesses, increase property values, and create a more inviting atmosphere for residents and visitors.</p> <p>Promote Economic Development: Invest in activities and projects that drive economic growth, including marketing efforts, real estate development, and strategic partnerships that encourage business retention and attraction.</p> <p>Advance the "Re-Envision Redford" Master Plan: Align with the vision established in the Township's recently adopted master plan, which seeks to create a vibrant, walkable downtown that serves as a hub for community engagement and economic activity. This includes a focus on mixed-use developments, active transportation options, and spaces that foster a sense of community.</p> <p>Through these efforts, the Redford Township DDA strives to create a thriving downtown district that enhances the quality of life for residents, attracts visitors, and positions the Township for long-term economic success.</p>	Wayne County	-	Sen. Cavanagh, Rep. Young, and Rep. Pohutsky
MSF	1001	Agricultural Tourism Hub Redevelopment	\$2,000,000	Fife Lake Township	Fife Lake Township will acquire of the administration building, water, and wastewater systems at the former Pugsley Correctional Facility will address critical infrastructure needs of the community. This expansion will alleviate space constraints, improve service delivery, allow for better management of utilities, and secure compliant election infrastructure, laying the groundwork to create an agricultural tourism hub as an economic driver for the community. Through public-private partnerships, the township will ensure the long-term success and growth of the facility as an agricultural tourism hub. These partnerships will drive economic opportunities and job creation, create positive impact for the businesses affected by the closure of the prison, and ensure the long-term sustainability of the facility while promoting environmental stewardship.	Grand Traverse County	-	Rep. Roth
MSF	1002	Auto Show Public Safety	\$225,000	Detroit Auto Dealers Association	<p>The grant will be used to help support and offset public safety, parking, facility rental, and other governmental related expenses and costs related to the auto show.</p> <p>The Auto Show spans more than one week during January of 2025. Most of these expenses are payable to Huntington Place through the Convention Authority.</p> <p>The Auto show runs from January 10th through January 20th, 2025 and showcases Michigan's leadership in the automotive industry and highlights economic development and educational opportunities in the industry.</p>	Wayne County	-	Rep. Snyder
MSF	1003	Brownstown Municipal Infrastructure	\$1,500,000	Charter Township of Brownstown	Funds will be utilized for the purpose of design, architectural services, engineering, construction management, construction, and other related goods and services to support the renovation of Brownstown Township Hall.	Wayne County	-	Sen. Camilleri
MSF	1004	Center for Social Enterprise Development	\$1,000,000	Center for Social Enterprise Development	The public purpose of this project is to support the establishment and sustainable growth of social enterprises to provide marginalized Michigan residents employment opportunities, with an emphasis on people with disabilities. This will be done by creating innovative pathways to entrepreneurship and workforce integration. The establishment of the Center for Social Enterprise Development, convened collaboratively between the Small Business Association of Michigan and Incompass Michigan will be focused on employment-related social enterprises as a means to drive sustainable change in the employment landscape for people underrepresented in the workforce. The Center will 1) provide grants for technical assistance and professional development, 2) connect social enterprises with available resources and relevant networks and 3) research and disseminate best-practices for social enterprise establishment and growth. The execution of this work will create a community of social enterprise businesses that will feature peer to peer learning and connections, advancing the further development of Social Enterprises in Michigan.	Ingham County	-	Sen. Cavanagh

Agency	Boilerplate Section	Grant Title	Amount Allocated/Appropriated	Grant Recipient	Project Purpose	Location	Amount Disbursed as of 3/3/25	Sponsor
MSF	1005	Chinatown Development	\$1,000,000	Midtown Detroit Inc.	The project will be for street improvements, infrastructure, construction of Peterboro Street as part of the Historic Chinatown Detroit project. This initiative is an exciting and unique opportunity to revitalize a significant area, and we are eager to collaborate with the State of Michigan, the community, and other key stakeholders to bring this vision to life.	Wayne County	-	Sen. Chang
	1053a	Infrastructure Grants	\$102,460,000					
MSF	1	Seawall Project (GP Shores)	\$1,000,000	City of Grosse Pointe Farms	Emergency Lake Shore Road Seawall repairs will protect critical infrastructure adjacent to Lake Shore Road including: shoreline, roadway, water and sewer. Repairs will also improve public safety by the elinination of (Voids in the revetment.	Wayne County	-	Sen. Hertel
MSF	2	City of New Baltimore (break wall project)	\$2,000,000	The City of New Baltimore	The public purpose of this project is to create a safe harbor for park-goers and recreational boaters at Walter and Mary Burke Park in New Baltimore. The addition of break walls at Walter & Mary Burke Park will allow boaters to safely access downtown New Baltimore from Lake St. Clair by reducing the impacts of wave energy experienced at the site that currently makes docking properly difficult for boaters during adverse conditions. Indirectly, this effort will also reduce the impacts of erosion along the shoreline and at New Baltimore's public bean while simultaneously protecting the City's critical infrastructure at the water treatment plant. This would create the only safe harbor freely available for public use in Anchor Bay with other public amenities like a beak, park and provide walking access to the City's downtown hub.	Macomb County	-	Sen. Hertel
MSF	3	City of Ypsilanti (Community infrastructure projects)	\$3,000,000	City of Ypsilanti	Grant funds will be used to reconstruct the public parking lot abutting both a park and business district in the city. To invest in the Department of Public Work facilities to address both functionality and safety issues. Budget constraints facing the City of Ypsilanti have led to the deterioration of both the Frog Island Parking Lot and the DPW Yard.	Washtenaw County	-	Sen. Irwin
MSF	4	Bay City (Bridge cost reimbursement)	\$1,600,000	City of Bay City	Grant will be used to reimburse the City of Bay City for much of the local match requirements of the Lafayette Bridge (a State-owned bridge) Replacement/Reconstruction Project. This will replace the local and Act 51 revenues the City would have otherwise had to dedicate to this project. This will enable the City to utilize these dollars for other City road projects.	Bay County	-	Sen. McDonald-Rivet
MSF	5	<del>Clawson (Water infrastructure)</del>	<del>\$1,000,000</del>					

Agency	Boilerplate Section	Grant Title	Amount Allocated/Appropriated	Grant Recipient	Project Purpose	Location	Amount Disbursed as of 3/3/25	Sponsor
MSF	6	Oak Park (Water and road infrastructure)	\$2,000,000	City of Oak Park	This project includes the full replacement of water main on Sussex Ave from Nine Mile to Rosemary and replacement of the water main crossings on Nine Mile Rd at Avon, Radclift, Wildwood, Marlow, Sussex, Church, Gardner, and Cloverlawn. The water mains will be installed according to AWWA standards, except where we may request variances due to existing conditions. According to our records, in the past fifteen years, we have experienced eight water main breaks on Sussex in this area and seven water main breaks on Nine Mile. Repairing these breaks required emergency water shut offs to several hundred people each time a break was repaired. Many water main breaks are also repaired outside of regular working hours, so the people repairing the water main were paid for overtime work. New, correctly installed and inspected water mains are not expected to break nearly as often as our sixty to seventy year old water mains that make up a large amount of Oak Park drinking water infrastructure. New water mains can be expected to have an estimated useful life of fifty years or more. This will have a direct impact on our residents, as the water shut-offs that coincide with water main breaks cause large disruptions and limited access to water to residents and businesses. Everyone needs access to safe drinking water in order to live well. New drinking water infrastructure benefits everyone in the immediate area as well as the people that they know outside the immediate area. Water main breaks are stressful for the workers who repair the mains as well as the people and businesses experiencing emergency water shut offs for an indeterminate amount of time. Water main breaks endanger the water quality throughout Oak Park, so replacing aging water infrastructure positively impacts the entire distribution system. The Nine Mile Road Rehabilitation project includes milling the existing asphalt overlay, completing some repairs on the underlying concrete, and replacing the overlay and restriping. If funds are available, improvements to non-motorized facilities may be considered as part of this project. We have a Nine Mile corridor improvement plan for non-motorized road users as part of a regional plan for Nine Mile. We don't have the funds to complete those improvements as part of this project. Nine Mile is a major commercial and residential corridor in Oak Park. Nine Mile should be safe and available for all road users. A new asphalt overlay will improve safety and drivability on Nine Mile. Furthermore, the non-motorized improvements will help us in carrying out the work we have already completed on the eastern portion of Nine Mile, and that are recommended in the Nine Mile Corridor Plan report that was created in partnership with the cities of Hazel Park, Ferndale, Southfield, Farmington and Farmington Hills, and Oakland County. This plan's goal is to provide 18miles of non-motorized facilities through South Oakland County, interconnecting six vibrant communities and transforming the corridor into a consistently accessible pathway for bicycles, scooters, foot travel and assistive mobility devices, fostering the area's well0eing, environmental preservation, active transportation culture and overall economic development.	Oakland County	\$500,000	Sen. McMorrow and Rep. Weiss
MSF	7	Garden City (Sidewalk improvements)	\$2,500,000	City of Garden City	The goal is to have a fully walkable City with a complete grid of sidewalks to enhance the livability of the community. Additionally, these sidewalks will be designed to meet ADA requirements so that the all people will be safe on a sidewalk and not in the street. The Sidewalk GAP Program in the City of Garden City will be to provide public sidewalks in the City where there are gaps between properties; identify houses where here is not a sidewalk and install the "gap" to connect to the next property with a sidewalk; will conduct a study and prioritize the most important areas and begin in those areas; restore the private and public property disturbed by the sidewalk installation; will connect sidewalks with streets at intersections and make ADA upgrades to these access points; identify and install sidewalks to provide safe routes to schools for all children attending schools in the City; and create a safe surface without trip hazards.	Wayne County	-	Sen. Polehanki
MSF	8	Brooklyn (School routes)	\$450,000		Forms not received.			PENDING

Agency	Boilerplate Section	Grant Title	Amount Allocated/Appropriated	Grant Recipient	Project Purpose	Location	Amount Disbursed as of 3/3/25	Sponsor
MSF	9	CATA (Facility improvements)	\$5,000,000	Capital Area Transportation Authority (CATA)	<p>As a public authority, CATA will use these funds to address capacity issues for administrative staff at its existing South Lansing headquarters facility. As demand for public transportation and ridership has expanded in recent years, CATA's administrative staffing needs exceeds the facility's capacity. Additionally, CATA's Board of Directors and executive leadership are aware that the current headquarters location are inaccessible by the public, especially those who don't have other viable means of transportation, primarily comprising seniors, people with disabilities and the underemployed/unemployed. In alignment with its strategic goal to achieve regional mobility through public-private partnerships, CATA requires a development that provides its riders and the public with direct access to its primary transit hub, its Customer Experience team and public-facing executives and employees, and community resources that seamlessly integrate within the existing infrastructure — with an emphasis on support for our region's most marginalized and underserved populations. CATA's proposed facility would bring the following benefits to the region:</p> <ul style="list-style-type: none"><li>• Make community resources and social services more equitably accessible among target populations</li><li>• Remove transportation barriers, thereby addressing staffing shortages among area employers</li><li>• Create jobs and job access; attract skilled talent to downtown Lansing offices and businesses</li><li>• Redevelop underutilized land by employing sustainable and urban design best practices</li><li>• Co-locate complementary transit-oriented design land uses and services</li><li>• Involve community partners to identify shared community goals</li><li>• Create access to social, employment, job-training, and health care resources</li></ul>	Ingham County	-	Sen. Anthony and Rep. Witwer
MSF	10	Invest Detroit (Senior Housing)	\$2,000,000	Invest Detroit Foundation	<p>The Kamper and Stevens Buildings provide much needed housing for seniors in downtown Detroit, a district that has seen a considerable influx of market-rate housing over the last decade, which has in turn put affordable housing options at risk. Invest Detroit, in partnership with the Roxbury Group, undertook a \$20 million recapitalization and renovation of the properties in 2018, and in connection with that project committed to maintain the units as senior, affordable for fifty years (at 60% AMI). While the is renovation accomplished numerous much needed improvements to the properties, the overall financing left the project short of the necessary funds to undertake a complete overhaul of the elevators, and certain related electrical upgrades, all of which are well past their useful life.</p>	Wayne County	\$1,250,000	Sen. Chang
MSF	11	Taylor/Wayne County (Community infrastructure)	\$5,000,000	City of Taylor	Forms not received.	Wayne County	-	Sen. Geiss

Agency	Boilerplate Section	Grant Title	Amount Allocated/Appropriated	Grant Recipient	Project Purpose	Location	Amount Disbursed as of 3/3/25	Sponsor
MSF	12	Kalamazoo County (Tornado relief)	\$2,000,000	County of Kalamazoo	Public Purpose of the Project: The May 7, 2024, tornado that struck the southern portion of Kalamazoo County caused significant destruction to public infrastructure, homes, businesses, and essential services. The proposed project aims to address critical recovery needs, including the restoration of essential public services, infrastructure repairs, housing recovery, and community resiliency measures. The primary purpose of this project is to ensure the safety, well-being, and economic recovery of Kalamazoo County residents and businesses affected by the disaster. Consistency with PA 121 of 2024: PA 121 of 2024 allows for state assistance to local units of government in the aftermath of natural disasters, particularly for projects that enhance public safety, restore public infrastructure, and prevent future loss of life or property. This project is consistent with the legislative intent of PA 121, as it directly focuses on: -Restoring and improving infrastructure critical to public health and safety (such as roads, water systems, and emergency response facilities). -Providing housing assistance to displaced residents. -Ensuring community resilience by reinforcing infrastructure to better withstand future disasters. -Supporting economic recovery by restoring damaged commercial areas and facilitating small business recovery. Additional Detail: In addition to basic recovery efforts, this project includes a component of long-term mitigation planning. By rebuilding with more resilient materials and modern designs, the County aims to reduce the impact of future storms. This includes upgrades to stormwater systems, reinforced public facilities, and improved communication and coordination protocols among emergency responders. Furthermore, the project also involves community engagement and education efforts to help residents better prepare for and respond to future natural disasters, making this recovery effort a comprehensive solution to both immediate and future needs. This project will serve as a model of resilience and preparedness for the entire region, demonstrating how local government can respond quickly to disaster while also planning for future risk mitigation.	Kalamazoo County	\$500,000	Sen. McCann
MSF	13	Lathrup Village (Community infrastructure)	\$2,000,000	City of Lathrup Village	Southfield Road Water Main Replacement Project includes replacing ~6,000 linear feet of water main, which was originally installed between 1926 and 1928, to improve water flow and reliability throughout the city's northern half, which services approximately 1,200 residential homes and 50 businesses. The project will significantly increase fire protection and fire flow rates due to the increased pipe size and elimination of the undersized, tuberculation-filled cast iron water mains. Over 12 water main breaks have occurred, and the replacement will also reduce future maintenance costs for repair and loss of business operations.	Oakland County	-	Sen. Moss and Rep. Hoskins
MSF	14	Warrendale Business Association (Corridor improvements)	\$2,500,000	The Elle Foundation (D/B/A Warren Ave. Business Authority)	Improve business and business infrastructure development and upgrades for the warrendale neighborhood and business corridor.	Wayne County	-	Sen. Santana
MSF	15	MI Association of Municipal Clerks	\$1,035,000	Michigan Association of Municipal Clerks	Infrastructure projects to provide precinct accessibility grants to local municipal clerks. The funding will support local municipal clerks in ensuring that voting precincts meet the requirements of the Americans with Disabilities Act (ADA). Although this funding won't fully cover all the needs, it serves as a strong starting point.	Ingham County	-	Sen. Anthony
MSF	16	BWL Steam Conversion Project	\$5,000,000	Lansing Board of Water & Light	Melanie D. Ryska, MAMC President The purpose of this project is to replace Lansing Board of Water & Light (BWL)'s aging steam system with a more efficient and reliable hot water system. This project will take place over many phases. It will provide customers who receive steam heat with hot water to heat their buildings in the winter. The first phase will focus on planning and design for some key downtown Lansing customers and will fall on BWL's fiscal year (7/1/2025 -6/30/2026) for total budgeted amount.	Ingham County	-	Sen. Anthony, Rep. Witwer, and Rep. Dievendorf
MSF	17	Eaton County Bank Intercounty Drain Project	\$5,000,000	Eaton County	Support the costs of the Bank Intercounty Drain project in the County of Eaton following a petition filed on November 19, 2021 to the Bank Intercounty Drain Drainage Board and found necessary at a Hearing of Necessity on March 6, 2023 according to the Michigan Drain Code.	Eaton County	-	Sen. Anthony and Rep. Witwer

Agency	Boilerplate Section	Grant Title	Amount Allocated/Appropriated	Grant Recipient	Project Purpose	Location	Amount Disbursed as of 3/3/25	Sponsor
MSF	18	Frankenmuth Youth Sports Complex	\$10,000,000	Frankenmuth Downtown Development Authority (DDA)	The Frankenmuth ODA plans to disburse funds to the Frankenmuth Growth & Development Foundation (formerly Frankenmuth Chamber Foundation) for the purposes of developing a nonprofit facility that will host year-round sporting events and tournaments for a minimum of 3 sports, including basketball, volleyball, pickleball and more. A committee (Frankenmuth Area Sports & Tourism Alliance) of the Frankenmuth Growth & Development Foundation will be the governing body for this new tourism development project. Attached is the most current Pro Forma. The Frankenmuth Convention & Visitors Bureau, as a local partner, has also hired SFC for Owner's Rep Services to move the project forward.	Saginaw County	-	Rep. O'Neal, Sen. McDonald-Rivet, and Sen. Daley
MSF	19	Detroit Zoo Infrastructure	\$7,000,000	Detroit Zoological Society	Detroit Zoological Society (DZS) requested State funding to continue urgent water infrastructure improvements at the Detroit Zoo's 95-year-old main campus. The DZS is a critical asset for our state, driving recreation and tourism with nearly 1.2 million visitors and \$168 million in economic impact expected this year alone. The DZS needs this investment to replace aging infrastructure for storm water, sanitary and municipal water supplies. The DZS has conducted extensive analysis exposing antiquated infrastructure that poses a significant risk to structures and animal habitats.	Wayne County	\$1,750,000	Rep. Steckloff, Sen. McMorrow, Rep. Price, Sen. Chang, Rep. Weiss, Sen. Cavanagh, Rep. Scott, Sen. Moss, Rep. McFall, Rep. Breen, Rep. B. Carter, Rep. MacDonell, and Rep. Hoskins
MSF	20	Bonstelle Theatre Detroit	\$5,000,000	Invest Detroit Foundation	The Bonstelle Playhouse will provide a much needed non-profit venue for the hosting of community gatherings and performances in the greater downtown. It's ability to host a sit-down event for up to 300 people as well as a performance for up to 1,200 spectators fills a particularly unmet demand within the city's core, with excellent proximity to the Detroit Medical Center, Wayne State University as well as the balance of Detroit's larger entertainment district In addition, the project will ensure the complete restoration of one of Detroit's oldest and most under-appreciated historic properties - one with deep ties to Detroit's Jewish community as well as to generations of performers who learned their craft through the Wayne State Theatre program.	Wayne County	\$1,250,000	Sen. Chang
MSF	21	Wyoming Non-motorized Trail	\$3,000,000	City of Wyoming	This award is for the City of Wyoming's non-motorized trail that is headquartered in Kent County with a population of 659,000. The award will fund improvements to the trails on 52nd and 56th Streets.	Kent County	-	Rep. Fitzgerald and Sen. Brinks
MSF	22	Washtenaw Huron Waterloo Pathways Border-To-Border trail	\$3,000,000	Huron Waterloo Pathways Initiative	HWPI's mission is to facilitate development and promote enjoyment of regional trails connecting people, communities, and nature. Through this mission, we work to develop non-motorized trails throughout Washtenaw County and into connecting counties, providing significant funding to our projects, as well as communications support, community engagement activities, policy expertise, volunteer opportunities, and programming. Our current major project for which the state appropriation applies is the Washtenaw County-wide Border to Border Trail (B2B Trail) - which we work to develop with our primary public partner, the Washtenaw County Parks and Recreation Commission (WCPARC). When complete, the 45-mile B2B Trail will traverse the entire county, from the Washtenaw-Wayne border in the east to the Washtenaw-Jackson border in the west - crossing 4 cities, 2 major universities, 2 major hospital systems, multiple nature areas, 3 metroparks, and more, with over half of the trail running next to the beautiful Huron River. Beyond Washtenaw County, the B2B Trail connects directly into the Van Buren Township segment of the Iron Belle Trail in Wayne County to the east (which further connects to the Lower Huron Metropark series of trails) and through Jackson and Ingham Counties to the west, connecting to the Lakelands Trail. HWPI is actively funding much of the Van Buren Trail, as is heavily involved in the planning and eventual funding for the Lakelands connection. Just over 6 miles remain for the trail to be fully connected and complete across the county, but the final miles represent the most challenging and expensive segments of the whole project. This funding, and additional funding to come, will support our remaining major segments - 3 projects along the Huron River between Ann Arbor and Dexter (comprising about 3 miles of trail, 3 bridges over the Huron River, and boardwalk); 2 projects along the Dexter to Chelsea corridor (comprising about 2 miles, including a bridge over Mill Creek); and one project from where the trail currently ends at Boyce Rd along M-52 to the Washtenaw-Jackson County line (about 1.5 miles). This funding will be combined with individual and foundation funding, which will compromise about 45% of the remaining funds for the entire project. Other project partners - WCPARC, as well as local municipalities, the Washtenaw County Road Commission, and other local agencies - will combine to provide the remaining funding. Non-motorized trails like the B2B Trail provide tremendous value to the communities in which they exist - offering safe and accessible recreational opportunities; carbon free community options; nature access, especially to those who otherwise cannot experience nature regularly; local economic support; and connections to other communities, nature preserves, and more. Further, our work to connect the B2B Trail to other regional trails provides a truly unique opportunity to create a non-motorized trail network throughout southeast Michigan.	Washtenaw County	-	Rep. Conlin and Sen. Shink

Agency	Boilerplate Section	Grant Title	Amount Allocated/Appropriated	Grant Recipient	Project Purpose	Location	Amount Disbursed as of 3/3/25	Sponsor
MSF	23	Canton Township Summit Renovation	\$2,500,000	Canton Township	The public purpose of this project is the improvement of community recreation facility. Section 1053a (23). From the funds appropriated in part 1 for infrastructure grants, \$2,500,000.00 shall be awarded to a charter township with a population between 98,600 and 98,700 in a county with a population greater than 1,500,000 according to the most recent federal decennial census for renovations of a community recreation facility.	Wayne County	-	Rep. Puri
MSF	24	City of Hamtramck Public Works	\$2,000,000	City of Hamtramck	These funds will be used to develop a new facility for various services of the City of Hamtramck including public safety, public works, and parks and recreation. It will house office space, training space, storage, equipment and maintenance with the objective of centralizing and modernizing operations and maximizing efficiency.	Wayne County	\$500,000	Rep. Aiyash
MSF	25	Hamtramck Negro League Field/Veterans Park	\$2,000,000	City of Hamtramck	These funds will be used to reconstruct and improve the parking lots and infrastructure of the City of Hamtramck’s Historic Hamtramck Stadium – the Negro League baseball stadium.	Wayne County	\$500,000	Rep. Aiyash
	1053b	Infrastructure Grants (continued)						
MSF	1	Windsor Township Water Hookup to BWL	\$2,000,000	Windsor Charter Township	Installation of new water service lines to ensure clean, reliable, and affordable drinking water within a section of Windsor Charter Township.	Eaton County	-	Rep. Witwer and Sen. Anthony
MSF	2	Mount Clemens Riverfront Revitalization	\$2,000,000	City of Mount Clemens	The public purpose of this project is to create a safe harbor for park-goers and recreational boaters at Walter and Mary Burke Park in New Baltimore. The addition of break walls at Walter & Mary Burke Park will allow boaters to safely access downtown New Baltimore from Lake St. Clair by reducing the impacts of wave energy experienced at the site that currently makes docking properly difficult for boaters during adverse conditions. Indirectly, this effort will also reduce the impacts of erosion along the shoreline and at New Baltimore's public beach while simultaneously protecting the City's critical infrastructure at the water treatment plant. This would create the only safe harbor freely available for public use in Anchor Bay with other public amenities like a beach, park, and provide walking access to the City's downtown hub.	Macomb County	-	Rep. Mentzer and Sen. Hertel
MSF	3	Wyandotte Downriver Arts Center Historic Rehab	\$2,000,000	City of Wyandotte	\$2,000,000 was approved for the renovation and rehabilitation of the historic Wyandotte Arts Center building located at 81 Chestnut Street, Wyandotte.	Wayne County	-	Rep. Churches and Sen. Camilleri
MSF	4	Saginaw Memorial Cup Upgrades	\$1,600,000	Saginaw County	The purpose of the funds is the design, construction/installation and signage for an elevator at the Dow Event Center in downtown Saginaw, Michigan. The facility is approaching half a century of usage, as not only the home of the Saginaw Spirit CHL hockey team, but also as the host to countless community events (graduations, school plays/concerts, community organization hosted displays & fundraisers), concerts, shows, artists showcases and many more. Due to its age the facility was not originally designed with an elevator or other ADA/accessibility options. The elevator makes all areas of the arena open and available to patrons with a wide range of mobilities, as well as making the facility more open to a wider range of shows/events to bring community members and visitors to historic downtown Saginaw.	Saginaw County	-	Rep. O'Neal and Sen. McDonald-Rivet
MSF	5	Mount Clemens Septic Station Project	\$1,500,000	City of Mount Clemens	Mount Clemens is the only place in Macomb County that accepts sewage from septic haulers, vector trucks etc. All northern communities bring their waste to Mount Clemens. This will help construct a new septic receiving station.	Macomb County	\$375,000	Rep. Mentzer and Sen. Hertel
MSF	6	Oak Hill Cemetery - Battle Creek	\$1,200,000	Oak Hill Cemetery Company	Oak Hill Cemetery is an important landmark in Battle Creek, containing the rich history of the community since its inception in 1844. This grant will allow the Cemetery to do vital restoration work allowing the public better access, preserving this important history and allowing it to continue as an active cemetery for generations to come.	Calhoun County	-	Rep. Haadsma
MSF	7	Ironwood Ski Jump - Pine Mountain Ski Jump at Veterans Park	\$1,000,000	Kiwanis Ski Club	Pine Mountain Ski Jump at Veteran's Park From the funds appropriated in Part 1 for infrastructure grants, \$1,000,000 shall be awarded to a non-profit organization that is a ski club located in a county with a population between 25,900 and 26,000 according to the most recent federal decennial census for the construction and installation of an Americans with Disabilities Act compliant elevator to improve compliance and accessibility of a ski jump.	Dickinson County	-	Sen. McBroom

Agency	Boilerplate Section	Grant Title	Amount Allocated/Appropriated	Grant Recipient	Project Purpose	Location	Amount Disbursed as of 3/3/25	Sponsor
MSF	8	Oak Valley Park in Pittsfield Township	\$1,000,000	Pittsfield Charter Township	<p>Parks and Recreation improvements have ranked as one of the top priorities for Pittsfield Township residents in a multitude of surveys, planning forums, design charrettes, and other public engagement platforms the Township has undertaken since 2009. In 2018, Pittsfield Township acquired an approximately four -acre parcel at the corner of Oak Valley Road and Waters Road in Pittsfield Charter Township (Pittsfield), referred to as the "Waters/Oak Valley Park", through the Michigan Department of Natural Resources MDNR) Trust Fund Acquisition Grant; and residents and Township officials have strongly stated their desire to establish a park at the Waters/ Oak Valley location, as documented in Pittsfield' s 2020 Sustainable Vision Parks &amp; Recreation Master Plan.</p> <p>The Township has worked very hard to develop a master plan for the development of Waters/ Oak Valley Park that would provide an urban park in the northwest area of the Township that is currently heavy commercial/ residential and lacking in open space.</p> <p>The proposed public park will include trails, recreational facilities (pickleball courts, sand volleyball, playscapes), and wildlife viewing of the woodland and wetland areas of the property. The proposed project will incorporate the desires of its residents, integrate environmentally friendly features into the design, minimize the impact of on-site natural features, and create an enjoyable experience for all park users, while providing direct linkages to nearby existing mixed used and residential developments.</p>	Washtenaw County		Rep. Brabec
MSF	9	Oak Park Community/Recreation Center	\$1,000,000	City of Oak Park	<p>Through feedback the City received from a yearlong planning and public engagement process in 2022 to update the City's Parks and Recreation Master Plan, it was identified that the Oak Park community strongly desired a new community center that includes an indoor pool, indoor track, gymnasium, and room for the increased programming. Based on the community's needs, the current community center is grossly inadequate. Consisting of only eight standard meeting rooms, it severely limits the space and programming the City is able to offer, resulting in unmet needs of many users.</p> <p>Oak Park residents showed strong support for the new community center when they voted to pass two recreation millages on the November 2023 ballot. The proposals included a general obligation bond proposal to build a new community center, and a Headlee override for recreation purposes for a period of twenty years to fund capital improvements for parks, facilities and amenities, and to cover the increased cost of general operations in the Parks and Recreation department that will coincide with the new community center. A new community center will provide us the opportunity to vastly expand our programs and amenities to meet the expressed needs of all users. The expanded programming we wish to be able to provide in the future includes year-round aquatic programs, indoor walking, basketball, pickleball, volleyball and soccer programs, open gymnasium access to the community, wellness, fitness and dance programs, and community fitness programs. Recreational opportunities are essential to an individual's quality and longevity of life and overall mental health, which is why we have promised our residents a new Community Center that best supports these goals. Due to the fixed budgets of many of our residents, we were conservative in our bond request to the voters. While the voter-approved bond provides a secure funding mechanism for \$44 million, we are going to struggle to provide all the amenities our community members want and need from this facility. Therefore, any additional outside funding we can secure will help us to ensure we are able to provide the community with a new facility that meets all of their needs.</p>	Oakland County	-	Sen. McMorrow and Rep. Weiss
MSF	10	Judson Center Royal Oak Campus Renovations	\$1,000,000	Judson Center	<p>The Judson Center Royal Oak Renovation Project is a transformative initiative to renovate and modernize the Royal Oak Campus at 13 Mile and Greenfield, ensuring it meets the evolving needs of the community while expanding its capacity to provide critical services. This comprehensive renovation will enhance facilities for autism, behavioral health, adoption, and foster care services by creating larger, safer spaces designed for optimal care delivery. Unique entrances will be incorporated to ensure privacy for individuals and families, while flexible spaces will accommodate program growth and innovation. A key feature of the project will be the creation of an integrated health clinic, fostering holistic care and promoting improved outcomes for those we serve. This transformation underscores Judson Center's commitment to its mission and the community.</p>	Oakland County	-	Rep. Price

MSF	11	Dickinson County Road Replacement: County 573 Road	\$1,000,000	Dickinson County Road Commission	County Road 573 is a Primary Road located in Dickinson County that is a critical economic route for the lumber & timber industries. It is also a scenic route that provides access to hunters, snowmobiles, fishermen, ORV's and other outdoor enthusiasts. There are numerous residents that also live on County Road 573. The overlay will improve the driving, walking and bike riding conditions for them as well as the general motoring public. The project will comprise of a 4.59 miles of a rubberized overlay that goes from US2 to the City of Norway city limits.	Dickinson County	\$250,000	Rep. Hill
MSF	12	Detroit Parks Coalition Infrastructure & Accessibility	\$1,000,000	Detroit Parks Coalition	Forms not received.	Wayne County		Rep. Young and Rep. McKinney
MSF	13	City of Detroit Public Parks and Greenway Infrastructure	\$1,000,000	City of Detroit	The Joe Louis Greenway is a 29-mile cycling and pedestrian path that travels through 23 neighborhoods in the City of Detroit, as well as the neighboring communities of Dearborn, Hamtramck, and Highland Park. It consists of a combination of shared-use paths, bike lanes, landscaping, lighting, wayfinding and other amenities.	Wayne County	-	Rep. Scott
MSF	14	Wayne Port Authority	\$1,000,000	Detroit/Wayne County Port Authority	Section 1053B Line 14 (14) From the funds appropriated in part 1 for infrastructure grants, \$1,000,000.00 shall be awarded to a port authority located in a county with a population greater than 1,500,000 according to the most recent federal decennial census for a pilot program and future development of port authority facilities. The funds will be used for the planning and development of a public port facility.	Wayne County	-	Rep. McKinney
MSF	15	Grand Rapids Ford Airport Control Tower Local Match	\$2,000,000	Gerald R. Ford International Airport Authority	The purpose of the project is to support construction of a new Air Traffic Control Tower (ATCT) at the Gerald R. Ford International Airport (GRR). The current ATCT is outdated, does not meet current code requirements, and is located so that it is inhibiting future airport development due to line-of-sight restrictions. A new ATCT located on the east side of the airfield will allow for continued development that will aid GRR in continuing to serve and meet the needs of the growing West Michigan community. This grant will fund enabling work for the construction of the new ATCT.	Kent County	-	Rep. Skaggs and Sen. Brinks
MSF	16	West Bloomfield Township Greer Road Bridge Replacement	\$800,000	Cass Lakeside Community Association	The Greer Road Bridge at Rosedale Drive is a bridge in West Bloomfield Township maintained by the Cass Lakeside Community Association that services 238 homes. The bridge is no longer safe for the public to use without concern. The bridge does not meet the 2015 fire code requirement for fire trucks, and West Bloomfield Township has indicated they may be forced to cease emergency services to the neighborhood because the bridge is no longer load rated to support even the smallest fire truck. Other bridges in the neighborhood need maintenance work, and the construction equipment necessary to carry out those repairs cannot enter the neighborhood over the poorly-rated bridge, delaying future infrastructure work. Repair of the bridge will improve the safety of residents, visitors, construction workers, and first responders entering and exiting the neighborhood in northern West Bloomfield, and extend the bridge's lifespan significantly.	Oakland County	-	Rep. Arbit and Sen. Bayer
MSF	17	Waterford Township Senior Center	\$500,000	Waterford Township	The Waterford School District provided senior services in an old elementary school for Waterford Township. All the costs were covered by the School District. The School District no longer wants to provide these services, because they want to focus on early childhood development. Over 25% of Waterford's population is 60 years old, and the seniors are vital in the community. Waterford Township wants to continue providing senior services, including Meals on Wheels, however, it will cost \$1,190,374.00 which the Township cannot afford without assistance. The grant of \$500,000 will help pay for five full-time and two part-time employees, building and maintenance costs, recreation costs, contracted services, and information technology costs that the Township will start paying in 2025.	Oakland County	-	Rep. B. Carter
MSF	18	Wayne County School Infrastructure	\$500,000	Wayne County	The public purpose for this project is to improve facility access protection to meet safety and security concerns and requirements by adding secured and controlled entrance access to the premises for the children, staff, and public utilizing the school. As security threats to educational facilities have increased in recent years, improved access controls and the need for security cameras to monitor any potential security threats have become standard over the last decade for such facilities, including schools like MAYA located on Ford Road in Dearborn, Michigan.	Wayne County	-	Rep. Farhat and Rep. Byrnes
MSF	19	Public WiFi in Greektown Area Detroit	\$300,000	Greektown Neighborhood Partnership	The grant will directly support technology to enhance public safety and connectivity in the commercial and entertainment district of Greektown Detroit.	Wayne County	-	Rep. Snyder
MSF	20	Innovate Albion Elevator Installation	\$250,000	Innovate Albion	Forms not received.			Rep. Haadsma

MSF	21	Buena Vista Township Administrative Offices	\$1,000,000	Buena Vista Charter Township	The COVID-19 pandemic shined a light on many needs in governmental processes which included adequate spacing for staff and constituents as well. Due to the floorplan of the current Township building located at 1160 S. Outer Drive. Saginaw, MI, there was no way to sufficiently space the staff in a way that provided safe and fair working conditions. While many relied on the ability to work from home, unfortunately as a local municipal office that was not an option. Due to the space constraints and the current status of the aging location, the Township Trustees and Superintendent have decided that it is best to relocate the office. The selected site that was deemed the best site for the new location is the former Buena Vista High School.	Saginaw County	-	Sen. McDonald-Rivet and Rep. O'Neal
MSF	22	Bridgman City Hall Rehabilitation	\$150,000	City of Bridgman	The Bridgman City Hall Renovation Project will extend the serviceable life of Bridgman's local government offices, police department, and fire department by at least twenty years. The project includes a new roof, spot water damage repair and new siding.	Berrien County	-	Rep. Andrews
MSF	23	City of Benton Harbor DDA - State Street Theatre Study	\$30,000	Benton Harbor Downtown Development Authority	This project consists an engineering assessment, feasibility, and pre-design work to plan for the reconstruction and restoration and renovation of the Benton Harbor State Theater. and Annex for the creation of a publicly owned not for profit performing arts and movie theater complex. The buildings comprising the theater complex are located in the heart of the Downtown District and they have been disused and blighted for nearly two decades. The lack of business activity and investment have added to the loss of revenue to the city by inhibiting the redevelopment of the nearby buildings and attracting the foot traffic needed to build a successful traditional downtown.	Berrien County	-	Rep. Andrews
MSF	24	Sumpter Township Park Improvements	\$25,000	Sumpter Township	The full Special Grant will be utilized for Banotai & Graham Parks improvements to features and grounds. This will include recreational feature enhancements, development and playscapes.	Wayne County	-	Rep. Miller
MSF	25	Hamburg Township Museum	\$20,000	Hamburg Township Historical Society	2024 marks the 20th anniversary of Hamburg Township Historical Society and Museum's service to the community as a cultural and educational resource.. The museum is a valuable asset to the community offering visual exhibits, presentations, classes, and archival records. With the anticipated growth in the area continuing, the need to invigorate resources grows with it. As a non-profit organization, financial limitations constrict the ability to modernize the infrastructure of the historic building housing the museum and expand exhibit options. A strategic step in successfully continuing our mission requires the following upgrades: 1)Modification of existing track lighting to energy-conscious and environmentally friendly technology, add electrical access for proposed interactive kiosk station, and ensure that these improvements allow for future, easy-access installations. 2)Creation and installation of acrylic display frames to reduce dead space and provide eye-catching, easily visible information 3) Purchase and installation of a kiosk for interactive displays. This medium brings history to life, perhaps more relatable, especially for younger people, in a way that some stationary exhibits may not. The installation of this kiosk combines the best of history with modern technology. It sends a message that the museum hears what visitors want and this, potentially encourages engagement and membership.	Livingston County	-	Rep. Conlin
MSF	26	Scio Township Road Improvements	\$1,000,000		Forms not received.			Rep. Rheingans
	1030	Minority-Owned Business Support	\$10,000,000					
MSF	1030(5)b	Lansing Area Economic Partnership	\$500,000	Lansing Economic Area Partnership	LEAP's Department of Equitable Economic Planning (DEEP) consist of programs and initiatives that unlocks the full potential of the local economy by dismantling barriers and expanding opportunities for low-income people and communities of color. Our programs include Elevate: Black Business Accelerator, Ascend: Hispanic Business Accelerator, One & All: entrepreneurial program focused on those below the ALICE threshold, Small Business Certification Program: Assisting Woman, Veteran, Minority, Disabled, and LGBTQ+ owned business get certified, Economic Inclusion Fellowship Program, Capacity Building Grants to BIPOC Business Associations, and more. These programs fall under line item 1017-Minority Owned Business Support within PA 119 of 2023	Ingham County	-	Sen. Anthony
MSF	1030(5)c	Metro Detroit Black Business Alliance	\$500,000	Michigan Black Business Alliance	The Michigan Black Business Alliance operations are consistent with the language authorizing grant in PA 121 of 2024. Impact & Capacity Building: This project support will allow us to expand our reach, increase capacity, and strengthen our programs to support the entrepreneurial ecosystem throughout Michigan.	Wayne County	-	Sen. Anthony
	517	Arts and Cultural Program Earmarks	\$1,250,000					

Agency	Boilerplate Section	Grant Title	Amount Allocated/Appropriated	Grant Recipient	Project Purpose	Location	Amount Disbursed as of 3/3/25	Sponsor
MSF	517(3)	MSU Traditional Arts	\$250,000	Michigan State University	The funds will be used to support the staffing and activities of the Michigan Traditional Arts Program, including support of folklorist, conducting discovery research, assisting the MSU Museum in maintaining the MTAP Research Archives, representing Michigan at gatherings of sister program coordinators, and coordinating programs such as the Michigan Traditional Arts Apprenticeships, Michigan Heritage Awards, Michigan Quilt Project, and Michigan Stained Glass Census.	Ingham County	-	Sen. Singh
MSF	517(4)	MSU Traditional Arts (Concert of Color)	\$1,000,000	CultureSource on behalf of Concert of Colors	The Concert of Colors is metro Detroit’s free annual diversity-themed music festival. Global music at its finest at this colorful, festive, upbeat coveted summer event. Housed in CultureSource a coalition of 152 arts organizations in Southeast Michigan, the Concert of Colors has become the Midwest’s biggest diversity and arts festival. It is produced by the Concert of Colors with partners CultureSource, The Detroit Institute of Arts, Charles H. Wright Museum of African American History, ACCESS, University of Michigan – Detroit Center, Michigan Science Center, Detroit Historical Museum, College For Creative Studies, Hellenic Museum of Michigan.	Wayne County	\$500,000	Sen. Chang
