

**REQUEST FOR PROPOSALS**  
**MICHIGAN ECONOMIC DEVELOPMENT CORPORATION**  
**MEDC BUILDING ROOF REPLACEMENT RFP**  
**RFP-CASE-321046**

**Question and Response**

**Question:** Will other TPO Manufacturers beside JM be considered i.e. Carlisle or Firestone

**Response:** The specification of JohnsManville products in Attachment C of the RFP is the basis of design and is named as a reference to the quality and availability of all materials used in the project as a roofing system provided by a single manufacturer. Attachment A, Section V.D) Materials (Page A-4) permits substitute of equal qualifications upon written approval, product data must be provided to permit evaluation and comparison with specified products or materials.

The agreement to allow a specific substitution of materials does not diminish any other requirements of the specifications in Attachment C.
